NEW INTRODUCTIONS FOR 1963

ARCTURAS (Baerman-Milo '63) 550-95

Here is a massive beauty with immense florets of heavy substance and luxurious ruffling. Color is halfway between pure pink and medium rose — a very beautiful shade of utmost clarity, with 8 to 10 well attached and placed blooms opened on a plant of 55 to 60 inches. Arcturas will be a strong contender in its class.

Lge., ea. 2.00; Med., 1.50; Sml., 1.00; 10 Blbts., 2.00.

SHOWBOAT (Baerman-Milo '63) 441-80

It isn't everyday that a glad is both outstandingly beautiful and outstandingly novel, but here is one that is! Showboat is one of the rare new tricolors; predominantly light pink with a large velvety blotch of scarlet on a yellow background. Substance is heavy and ruffling greatly increases its beauty. Moderate needlepointing adds a piquant touch. The clean edges of the round scarlet blotches create a very neat effect. Showboat is a cinch to be a sell-out, so get your order in early.

Lge., ea. 2.00; Med., 1.50; Sml., 1.00; 10 Blbts., 2.00.
Unit: 1 Lge., 2 Med., 5 Sml., 50 Blbts., 12.00.

SIERRA MADRE (Baerman-Milo '63) 301-80

(Caribbean x Libretto, and Sparkling Eyes)

For a refreshing change of pace in your glad garden, plant this snowy white with bright blue-violet blotch (much bluer than in the picture). A consistent maker of nice tall spikes with 7 to 8 slightly ruffled blooms open at a time. A unique novelty that will be a real conversation sparker.

Lge., ea. 2.00; Med., 1.50; Sml., 1.00; 10 Blbts., 2.00.

ROYAL DAME (Baerman-Milo '63) 564-90

An enormous lavender with 6½ inch florets with 7 to 9 open and flowerheads so elevated they look one right in the eye. Florets are very heavy and waxy with pronounced needle-pointed petals. A topnotch exhibition glad.

Lge., ea. 2.00; Med., 1.50; Sml., 1.00; 10 Blbts., 2.00.
Unit: 1 Lge., 2 Med., 5 Sml., 50 Blbts., 12.00.

GLAMAZON (Baerman-Milo '63) 420-90

(A. B. Coutts x Golden Sunshine)

The sun-showered, golden buff blooms of Glamazon will amaze you. The plants come close to 5 feet, nestling straight husky flowerheads with 24 buds—9 open and 6 showing color. When fully open, the blooms are a nice golden buff. The blooms are large, well placed and of good substance and altogether a real beauty. This might be described as a giant Patrol but is far superior. We have found Glamazon to be husky, strong, straight, healthy and a fine cutter—the requisites for a good commercial. The competition in this class is tough but we still believe Glamazon can top them all.

Lge., ea. 2.00; Med., 1.50; Sml., 1.00; 10 Blbts., 2.00.
Unit: 1 Lge., 2 Med., 5 Sml., 50 Blbts., 12.00.

BLUE NILE (Baerman-Milo '63) 470-85

It is our considered opinion this is about the finest blue commercial to date. An extremely nice light to medium blue with a creamy white throat and accentuated by a deeper lavender blue blotch. Grows up to five feet tall all the way down the row with military straightness. A very good flowerhead stretching well upwards holding 18 to 20 buds, 6 open and 8 showing color. A large stock allows Blue Nile to be introduced at a low price.

Lge., ea. 1.00; Med., .75; Sml., .50; 10 Blbts., 1.00.
Unit: 2 Lge., 5 Med., 10 Sml., 100 Blbts., 12.00

GIBRALTER (Baerman-Milo-Wagner '63) 536-95

Here is a magnificent late cutflower red with six-inch florets and excellent attachment. Over five feet tall and soldier straight. An absolute self-color with no hint of either a white line in the throat or deeper red flecking on the margins. A light red with a sparkling golden sheen. Here is a red with a great future. A good stock permits modest price.

Lge., ea. 1.00; Med., .75; Sml., .50; 10 Blbts., 1.00.

SILVER CHALICE (White '63) 400-85

This exquisite heavily ruffled white blends to a cool green throat and will thrill all who grow it. Although many will grow this sculptured beauty for show purposes, it could very well establish itself as a leading commercial due to its health and vigor, uniform growth, and a heavy propagation. Performs well from all sizes with long tapering spikes from larger sizes that average 20 to 23 buds with 7 to 8 open. The stem is strong, florets are of heavy texture, Silver Chalice has been Champion Seedling seven times and its other awards are too numerous to list.

(L 1-1.00; 10-7.50) (M 1-.75; 10-5.00)
(S 1-.50; 10-3.00)
Unit: 3 Lge., 6 Med., 10 Sml., 50 Blbts., 10.00.

AMAZON (Larus '63) 536-85

This vigorous scarlet, with a deeper throat and a narrow white throat line, has the rare combination of massive spikes and a clean, bright color. The five-foot spikes carry 28 to 32 inch flowerheads with 8 of 24 to 28 buds open at a time in regular formal placement. While the fine color and large fluorescence are valuable commercial traits, its greatest value will probably be as a show glad due to its ability to produce a Mid-America size spike, with the beauty and character Mid-America never possessed.

Lge. or Med., 1.00 Each. 1 Bulb, 10 Blbts., 2.50.

BIRTHDAY CAKE (Griesbach '63) 442-90

A mouth watering sight, indeed, is this pink and white ruffled-laden glad. Its heavy substantiated petals are as if carved of wax. Two-year-old bulbs consistently produce long headed show spikes with 8 of 23 or more buds open at once in formal placement. Grows 60 inches tall. Healthy and very prolific. Cut spikes handle well and because of its ability to produce 25 inch heads from smaller sizes, it should become a most wanted commercial. Highest rated of over 150 seedlings in the 1960 N. J. trials.

Lge., ea. 1.00; Med., .75; Sml., .50.

CANDY CANE (Larus '63) 249-80

Here is the spectacular miniature all New England has awaited! The moderately ruffled round florets have a medium red border extending inward about half an inch with a blotch of the same color, separated by a wide irregular white band. Spikes are up to 48 inches tall with heads of 20 to 26 inches and 7 to 8 of 16 to 18 buds open. Although Candy Cane has demonstrated its ability to win on the show table, its most outstanding characteristic is its novel color which should insure great popularity for years.

(L 1-1.50; 10-12.00) (M 1-1.50; 10-12.00)

SNOW QUEEN (Baerman-Milo '62) 400-70

This tall commercial-type white inherits the height of Look but makes a compact spike of much greater size. A creamy glow in the throat sets off the whiteness of the remainder of the flower. The suede texture and light touch of ruffling add to the charm of Snow Queen. An easy tall grower reaching a height of 55 to 60 inches with 8 to 10 florets open. We think this should make a fine cut flower since it comes early. A good stock permits a modest price.

Lge., ea. .75; Med., .50; Sml., .25; 10 Blbts., .50.
Unit: 2 Lge., 4 Med., 10 Sml., 100 Blbts., 7.00.

TOWN CRIER (Baerman-Milo '62) 446-80

This is the first year red self-colors have been available from this originator, though his other originations have pretty well run the gamut of the other color classes. Town Crier shows its Royal Stewart ancestry by its ribbony spike but it has larger florets and strapping foliage. Spikes are well over five feet tall with extra long heads with 6 to 8 open. Indications are that this should be an outstanding cutter. Color is light spectrum red—not scarlet.

Lge., ea. 1.50; Med., 1.00; Sml., .75; 10 Blbts., 1.00.
Unit: 1 Lge., 2 Med., 5 Sml., 50 Blbts., 8.00.

TINKER (Baerman-Milo '62) 410-85

This lavishly ruffled cream has extra nice heads with 7 to 9 open florets right down the row. Attachment is excellent in spite of the heavy substance. Not a pale cream but a rich cream with a very high type of beauty. One of the few creams I have seen that should have a good future as a cut flower.

Lge., ea. 1.50; Med., 1.00; Sml., .75; 10 Blbts., 1.00.
Unit: 1 Lge., 2 Med., 5 Sml., 50 Blbts., 8.00.

CHOO CHOO (Baerman-Milo '62) 486-85

This smoky rivals Rusty for size, being almost a 586, but it surpasses Rusty in color, having a clean, creamy throat and a rich, soft, old rose color. Nice ruffling creates a most artistic effect. This tall massive novelty will open 7 to 8 and will be an asset to your garden and a winner on the show table.

Lge., ea. 1.50; Med., 1.00; Sml., .75; 10 Blbts., 1.00.
Unit: 1 Lge., 2 Med., 5 Sml., 50 Blbts., 8.00.

KICK OFF (Baerman-Milo '62) 520-95

This gorgeous buff-apricot proudly exhibits its tall massive spikes with blooms of about the heaviest substance in glad culture with lavish ruffling that makes this one a real beauty. The florets are huge and well placed. About 6 to 8 open at a time. We don't know anything else in its color class that can equal it. A real beauty in a weak class.

Lge., ea. 1.50; Med., 1.00; Sml., .75; 10 Blbts., 1.00.
Unit: 1 Lge., 2 Med., 5 Sml., 50 Blbts., 8.00.

GOLDFIND (Cotter '61) 414-90

Goldfind is a slightly ruffled medium yellow which grows up to 5½ feet tall. It has more than ample handle for cutting and makes up to 30"-32" heads of 20-22 buds with 8-9 open florets of good placement and spacing. Makes plenty of large bulblets which germinate readily. Very healthy and vigorous. It has received "B-plus" ratings at the N.E.G.S. Seedling Shows even from bulblet grown spikes. For a long time, we have been looking for a good commercial type yellow and feel confident we have found it in Goldfind.

HELP WANTED

Each year we remove from our list prospective customers who do not order after receiving our catalogues for three years. To offset these, we ask your help in supplying us with names of people you feel will be interested in growing glads. If you will write their names and addresses in the space below, we will send you a bonus with this order.

Name.....

We are not interested just in names; our catalog is expensive and we want it to go to prospective glad customers. Thank you.

Midgets and Moppets

In the past few years there has been a decided increase in the interest shown in miniatures. There are probably several reasons for this, but we think the most important is that miniatures are the perfect home arrangement flowers. More florists and home arrangers have come to see the value of this type for small arrangements. They are unsurpassed in making up table decorations. Their grace and delicacy, as well as small size, make them the perfect flowers for bridal bouquets, cascades, corsages, mantle pieces and other dainty arrangements where larger varieties would be out of place.

ATOM (Hedgecock '46) 236-70

A beautiful small flowered scarlet with a gold edge around each petal. A great show winner and one that is good for all uses. Florists love this one.

(L 2-.35; 10-1.30) (M 3-.30; 10-.80)
(S 5-.30; 10-.50) (Blbts. pkg. .40)

BINGO (Summerville '59) 248-85

A medium rose red with a hairline edge around each petal. Combines miniature beauty and usefulness with an ability to win on the show table. Opens 8 nicely ruffled florets.

(L 1-.40; 10-3.20) (M 1-.30; 10-2.40)
(S 1-.20; 10-1.60) (Blbts. 15-.40; 100-2.50)

BO-PEEP (Butt '48) 331-65

Queen of the small glads! It is buff pink with a yellowish throat faintly dusted with red. Very early, deeply ruffled and heavy substance. Grows up to 50 inches with a 17-18 inch flowerhead carrying 16 to 18 buds with 6 open. You will love Bo-Peep.

(L 2-.35; 10-1.30) (M 3-.30; 10-.80)
(S 5-.30; 10-.50) (Blbts. pkg. .40)

CAMELOT (Larus '59) 242-70

One of the best new miniatures. Has all the good growing habits of Parfait but opens more—up to 11. Color is a medium pink blending to a yellow throat. Makes tall spikes with 23 buds. The grace and beauty of Camelot will please any miniature fan, even the most fastidious one.

(L 1-.25; 10-2.00) (M 1-.20; 10-1.60)
(S 2-.20; 10-1.80) (Blbts. 10-.25; 100-2.00)

CARVED IVORY (Fischer '56) 310-80

One of the most beautiful cut flower varieties to date and also an excellent show glad. Opens 7 of its 17 buds on a fine and well proportioned head. Its cream color is one of warmth and its ruffling is exquisite. Wonderful for arrangements.

(L 2-.35; 10-1.40) (M 3-.30; 10-.80)
(S 5-.30; 10-.50) (Blbts. pkg. .40)

CHOCOLATE CHIP (Fairchild '58) 296-75

A real dark brown glad in the style of Atom, even to the hairline silver edging. Has been extremely healthy and a vigorous grower, producing plenty of easily germinating bulblets. Opens 6 or 7 florets in typical miniature placement on slender stems with a head length of about 19 inches. We consider this a great improvement over Spunky, the leader in its class.

(L 1-.25; 10-2.00) (M 2-.30; 10-1.20)
(S 2-.20; 10-.80) (Blbts. 25-.25; 100-.75)

CINDY (Kroon '60) 214-80

A very beautiful and striking shorty with a lovely color of light yellow and a bright broad picotee orange edging, extending to the tips of the slightly frilled florets. Opens 6 to 7 on its neat graceful stems.

(L 1-.25; 10-2.00) (M 2-.30; 10-1.20)
(S 3-.25; 10-.70) (Blbts. pkg. .40)

CORVETTE (Butt '57) 246-70

Light red with darker throat. A beautiful variety that opens 10 to 12 well placed and attached blooms on a long head. One of the finest miniatures and a heavy show winner.

(L 2-.35; 10-1.40) (M 3-.30; 10-.80)
(S 5-.30; 10-.50) (Blbts. 25-.25; 100-.75)

CREAMETTE (Staples '61) 210-70

Show fans and commercial men alike will delight in this light cream miniature. Very early to bloom, the 3¼ inch lightly ruffled florets with slightly deeper cream throat makes it one of the best miniature prospects seen in some time. Creamette will hold 7 wide open florets, show 6 to 7 in color, and a like number of green buds, giving a well-balanced spike. Total plant height is 42" to 45" and flowerheads 21" to 23" long. Uniform in growth, it is a good producer of large bulblets that germinate nearly 100%. Florists like its exceptionally clean color, particularly for wedding work. Shown only twice, it was Best Seedling over all sizes at the N.E.G.S. Seedling Show at Medfield, Massachusetts last summer.

(L 1-.40; 10-3.20) (M 1-.30; 10-2.40)
(S 1-.20; 10-1.60) (Blbts. 10-.40; 100-3.20)

DARK VICTORY (Summerville '61) 258-85

A very deep ruffled rose-red with darker throat and a good sheen. Plants are vigorous and healthy and are capable of opening as many as 10 on heads of 25 inch with a total of 21 to 23 buds.

(L 1-.50; 10-4.00) (M 1-.35; 10-2.80)
(S 1-.25; 10-2.00) (Blbts. 10-.50; 100-4.00)

DIMPLES (Rohrbach '58) 342-85

Of the many better known introductions the past several years, none are quite as beautiful, in our opinion, as Dimples. The nicely ruffled florets are a clean medium salmon pink shading to a cream yellow throat with a small red blotch. Opens 6 to 8 perfectly placed 3¼ to 3½ inch florets on tall spikes with 18 to 23 buds. Really, a sensational show miniature.

(L 2-.35; 10-1.40) (M 3-.30; 10-.80)
(S 5-.30; 10-.50) (Blbts. pkg. .40)

DOMINO (Larus '59) 211-65

Cream white with a small dot-like lavender blotch on a cream throat. Florets are ruffled, round, and wide open. Miniature Champ many times and will be a top show glad for years.

(L 1-.25; 10-2.00) (M 1-.20; 10-1.60)
(S 2-.25; 10-1.00) (Blbts. 20-.25; 100-1.00)

EMILY'S BIRTHDAY (Butt '55) 235-70

The earliest blooming variety we have ever grown. Opens 5 to 7 on a slender 17 bud spike. Florets are ruffled and measure 3 inches. The color is salmon-orange with a yellow throat. Will fleck some under adverse conditions.

(L 2-.35; 10-1.40) (M 3-.30; 10-.80)
(S 5-.30; 10-.50) (Blbts. pkg. .40)

FRILLS (Larus '59) 314-70

A deep yellow throated glad. Of the 21 buds on a 23 inch head, 5 to 7 light yellow, heavily ruffled florets open at one time. A good show glad and valuable as a very early cut flower.

(L 1-.25; 10-2.00) (M 1-.20; 10-1.60)
(S 2-.25; 10-.75) (Blbts. 20-.25; 100-1.00)

GREEN THUMB (Butt '56) 214-70

Buds are so beautiful, like rosebuds, and really green. Fully opened, it is a deep greenish yellow tinted deeper in the throat, a solid unmarked color. Beautiful! Floret form is outstanding. Deeply ruffled and of very heavy substance with 7 to 8 open florets on spikes of 17 buds with excellent placement and attachment.

(L 2-.35; 10-1.40) (M 3-.30; 10-.80)
(S 5-.30; 10-.50) (Blbts. pkg. .40)

HENNA (Baerman '60) 296-70

Probably the most unique miniature ever introduced. Very oriental-looking in its chocolate brown coloring with henna tips and midribs. (Color is far more novel than our picture shows.) Will open up to 11 at once. A supreme novelty for arrangements. Don't overlook this delightful miniature.

(L 1-.35; 10-2.80) (M 1-.25; 10-2.00)
(S 1-.20; 10-1.60) (Blbts. .25; 100-1.50)

KAKAGA (Chaffin '62) 227-85

Brilliant deep orange with some yellow petals. Round, wide open and well ruffled. Opens 5 to 7 3/2 inch florets in formal placement on a flowerhead of 20 to 22 inches with 18 to 20 buds. A beautiful clean color.

(L 1-.75; 10-6.00) (M 1-.50; 10-4.00)
(S 1-.25; 10-2.00) (Blbts. 20-.50; 100-2.00)

PAGE BOY (Visser '60) 337-70

Very attractive variety resembling Atom in every respect but color. The red has an orange overcast with a yellow picotee edge. Opens 6 to 8. Stock is very limited.

(L 1-.35; 10-2.80) (M 1-.25; 10-2.00)
(S 2-.25; 10-1.00) (Blbts. 10-.25; 100-2.00)

PANDA (Larus '60) 211-70

Very nice miniature. Plants are 50 inches with a 25 inch flowerhead and 19-22 buds of which 5 to 8 open at one time. The ruffled creamy white 3 1/2 inch florets have a small blotch on a pale yellow throat. Merited an American Home Award at Boston in 1956, and best Three Spike Seedling at the 1959 Eastern International.

(L 1-.40; 10-3.20) (M 1-.30; 10-2.40)
(S 1-.20; 10-1.60) (Blbts. 15-.50; 100-3.00)

PAPER DOLL (Larus '62) 210-70

Here is one of the prettiest arrangement miniatures to be found. The pale cream florets have a deeper cream throat and are beautifully ruffled and knuckled toward the center. Plants grow 45 to 55 inches tall with 16 to 20 buds on wiry, graceful, flowerheads of 21 to 25 inches. The 5 open 3 1/2 inch florets are of medium heavy substance and informally placed. Its decorative potential is indicated by its winning a Champion Miniature Basket at two 1961 shows, one of which was the New Jersey Show at New Brunswick and the other at the Eastern International at Baltimore, where it beat the large varieties to become Grand Champion Basket of this show.

(L 1-.75; 10-6.00) (M 1-.50; 10-4.00)
(S 1-.35; 10-2.80) (Blbts. 10-.75; 100-6.00)

PARFAIT (Larus '58) 231-80

The nicely ruffled florets are a clean medium salmon pink and shading lighter at the periphery. The throat is cream

yellow with a small pale red blotch. Opens 6 to 8 well placed florets on spikes of 18 to 23 buds having a height of 50 to 58 inches.

(L 2-.35; 10-1.40) (M 3-.30; 10-.80)
(S 5-.30; 10-.50) (Blbts. pkg. .40)

SALMON CRINKLES (Rohrbach '58) 330-75

A sister seedling of Dimples (Wedgewood x Strawberry Peach) with about the same floret and spike characteristics. The color is a soft salmon and there are a few inconspicuous markings in the throat. Also healthy and a good bulblet producer. A worthy companion to Dimples and a variety we are sure you will like.

(L 2-.35; 10-1.40) (M 3-.30; 10-.80)
(S 5-.30; 10-.50) (Blbts. pkg. .40)

SAUCY (Larus '60) 226-72

This little cutie has a plant height of 45 to 50 inches bearing 21 buds of which 6 or 7 are open. The 3 1/4 inch florets are salmon orange with cream lip petals. Awarded the Best Miniature at Western Mass. in '55; New Jersey Seedling in '58; and best Miniature Seedling South Jersey in '58. A show glad and ideal for decorative purposes.

(L 1-.25; 10-2.00) (M 1-.20; 10-1.60)
(S 2-.30; 10-1.20) (Blbts. 10-.25; 100-2.00)

SPRING MAID (Summerville '61) 214-58

A very early glad. However, earliness is not its only attribute. Plants grow 50 to 55 inches tall with heads of 22 to 27 inches and 7 to 9 of 18 to 23 buds open at once. Color is light yellow with no markings. Good show glad and a truly beautiful decorative variety.

(L 1-.50; 10-4.00) (M 1-.35; 10-2.80)
(S 1-.25; 10-2.00) (Blbts. 10-.50; 100-4.00)

STATUETTE (Butt '50) 217-65

A very early, clear, medium yellow with a purplish-red throat marking. Opens 8 on an always straight spike. One of the top miniature varieties.

(L 2-.35; 10-1.40) (M 3-.30; 10-.80)
(S 5-.30; 10-.50) (Blbts. pkg. .40)

TIPPY TIM (Baerman-Milo '61) 201-80

This little cutey-puss is one of the finest miniatures. Growing in the fields, the long rows seem to remind us of the red lights along the "Gay White Way". The plants are healthy and vigorous. The flowerheads are sturdy, bearing 18 to 20 buds with 6 to 8 pert 200-size florets open. The blooms are beautifully ruffled and are set off by orchid-like purple blotches. Tippy Tim's versatility lends itself to many floral arrangements and should be in great demand by ingenious and artistic florists. If you like miniatures, you will like this eye-full, saucy-looking midget. Stock still limited.

(L 1-.75; 10-6.00) (M 1-.60; 10-4.80)
(S 1-.40; 10-3.20) (Blbts. 10-.60; 100-4.80)

TOWHEAD (Larus '60) 214-85

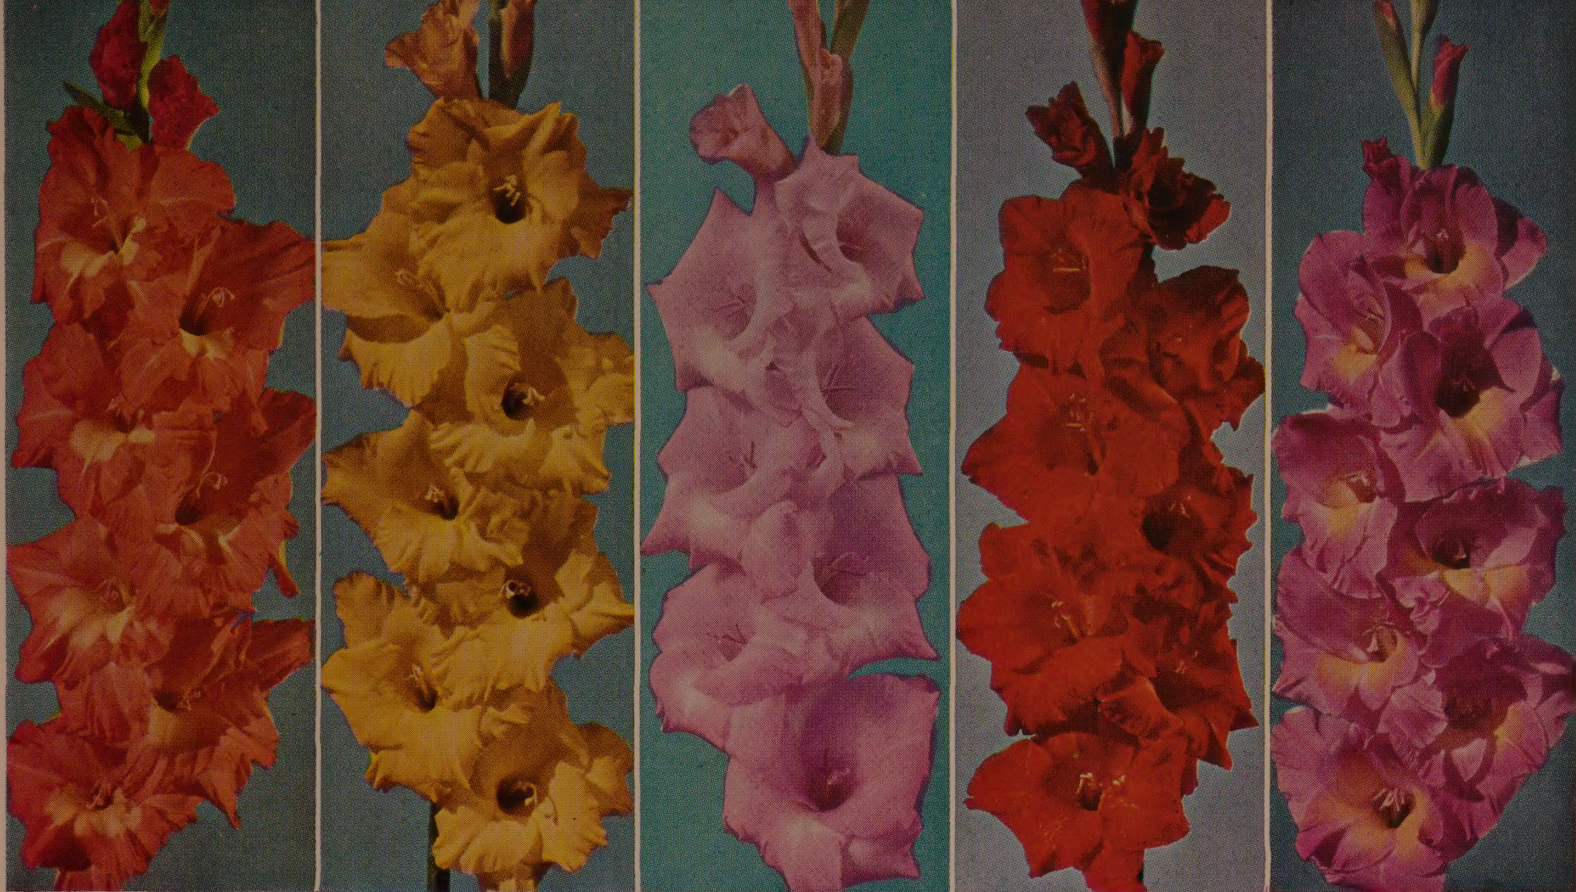

Plants stand about 50 inches tall and carry 22 to 25 inch heads with 6 to 8 of the 23 buds open. The 3 1/2 inch lightly ruffled florets are creamy yellow and slightly darker in the throat. Excellent health and propagation.

(L 1-.60; 10-4.80) (M 1-.40; 10-3.20)
(S 1-.20; 10-1.60) (Blbts. 10-.60; 100-4.80)

WING-DING (Summerville '60) 246-85

The 50-55 inch plant bears a 25 inch head on which are 23 buds with up to 9 open. Its bright medium, red color and black edging makes this an attractive glad. Has outstanding health and propagates easily. A prospective top show glad.

(L 1-.25; 10-2.00) (M 2-.35; 10-1.40)
(S 2-.25; 10-1.00) (Blbts. 25.50; 100-1.60)

JEEPERS

LAMPLIGHTER

MR. BIG

MAHATMA

CHERIE

JEEPERS (Baerman-Milo '62) 534-95

This huge medium salmon with small yellow eye stood out in the seedling field like a beacon. Please note that this is a salmon, not a salmon-pink. Substance is heavy and ruffling fairly intense. Jeppers easily opens 7 to 8 precisely placed florets on a spike of 20 to 22 buds. Because Jeppers will make an impressive cut flower and an eye-catcher as well it should motivate judges at the show table.

Large., ea. 1.50; Med., 1.00; Sml., .75; 10 Blbts., 1.00.
Unit: 1 lge., 2 Med., 5 Sml., 50 Blbts., 8.00.

LAMPLIGHTER (Baerman-Milo '62) 416-85

We were attracted to this deep buff-yellow by its uniformly large size and long flowerheads—not too common in yellows. Most of the deeper yellows have rather small florets but this is a large and strong 400. I'm counting on this as a valuable cut flower for my own use and believe it will pay you to stock it too. Ruffling gives Lamplighter a lot of beauty. Will open 6 to 8 well placed and attached florets on tall spikes.

Lge., ea. 1.50; Med., 1.00; Sml., .75; 10 Blbts., 1.00.
Unit: 1 lge., 2 Med., 5 Sml., 50 Blbts., 8.00.

MAHATMA (Baerman-Milo '62) 446-90

This medium scarlet-red has high color saturation, a luxurious velvety nap, lovely, slightly ruffled form, and uniformly good heads, with 6 to 8 open. A self-color even to the throat—this should be an excellent cut flower. Mahatma is as beautiful a red as we have seen. Luckily, it is much earlier than Harrisburger which enhances its commercial value.

Lge., ea. 1.50; Med., 1.00; Sml., .75; 10 Blbts., 1.00.
Unit: 1 lge., 2 Med., 5 Sml., 50 Blbts., 8.00.

MR. BIG (Baerman-Milo '63)

Wow!!! Wait 'til you see this one! A stately gargantuan species attaining an unbelievable height of nearly 6 feet, with huge blossoms better than 7 inches across in good placement—five opening at one time and 6 to 8 showing color. Prior to blooming, the buds have a greenish hue with some evidence of pink along the periphery. The churchillian blooms are cream white with light dashing pink throughout the well-matured blossoms. One or two in a large vase with some darker glads gives Mr. Big the uncanny knack of making its pink appear deeper in color, and despite its mammoth size, this variety maintains a high degree of poise and beauty never before achieved in any glad in this giant size. There is no question — this is the largest glad ever introduced.

Lge., ea. 2.00; Med., 1.50; Sml., 1.00; 10 Blbts., 2.00.

CHERIE (Baerman-Milo '62) 354-85

This dapper, clean-cut medium rose with light yellow throat makes nice trim heads of unique color value. Substance is excellent. We are sure the florists will love this one because of its unusual color appeal. Cutting habits are ideal. A honey for arrangements. Cherie will open 6 to 8 on a well balanced spike.

Lge., ea. 1.50; Med., 1.00; Sml., .75; 10 Blbts., 1.00.
Unit: 1 lge., 2 Med., 5 Sml., 50 Blbts., 8.00.

**1963 BULB SPECIAL
 1 LARGE BULB OF EACH**

ROYAL DAME	ARCTURAS
SHOW BOAT	GLAMAZON
SIERRA MADRE	SIERRA SUE
TERRA COTTA ROSE	NOREEN
CRIMSON SATAN	BLUE NILE

**A Catalogue Value of \$20.00
 FOR ONLY \$16.00 Prepaid**

PLEASE READ CAREFULLY BEFORE ORDERING

MAKING OUT YOUR ORDER. Please put everything down on the order blank just as listed in the catalogue. After adding them up, figure your bulb discount and add on the extra bulbs of your choosing.

DISCOUNTS AND EXTRAS. On all cash orders from the **RETAIL** descriptive list of \$5.00 to \$10.00 you may select 10% extra in bulbs of your own choosing. From \$10.00 to \$20.00 you may select 15%; all over \$20.00 select 20%. Discounts do not apply to Collections, All-America Special Offers, Wholesale Orders or this year's Introductions from Birchville Gardens or from other growers or originators.

MINIMUM ORDER. Due to the continued rise in general, we will be unable to accept orders for less than \$5.00. No orders will be accepted for less than the smallest unit listed in the retail list for each variety, except that when the smallest unit is ten, five bulbs will be sold at one-half the ten rate. Where bulbs are priced singly, ten bulbs will be sold for the price of eight.

SHIPMENT. Unless otherwise requested, retail orders will be sent out between March 1 and April 1 or sooner, if weather permits. Wholesale orders will be shipped as soon as possible after receiving them. All retail orders will be sent prepaid to all points in the United States.

F.O.B. ITEMS. If your order contains both f.o.b. and retail items, we will ship them together in one package f.o.b. but will give enough overcount and extras to more than offset the carrying charges on the retail items.

SUBSTITUTIONS. We will not substitute varieties or size unless your order specifically instructs us to do so. It is advisable to specify a second choice of variety or size, particularly if your order is placed late in the season.

SIZE OF BULBS. L indicates large size bulbs measuring more than 1 1/4 inches in diameter. M is a medium size bulb, 3/4 to 1 1/4 inches in diameter. S indicates a small bulb, under 3/4 inch in diameter. Blbts. stands for bulblets. You will get best results from the large bulbs. They will produce the best show spikes. Medium size bulbs will often produce show quality spikes, and will produce good saleable spikes. Small bulbs will in most cases bloom—the spikes they produce are not top quality, but you will get a large bulb to grow next year; they also produce quite a few bulblets.

GUARANTEE. We make every effort to keep our stock true to name and free from disease and insects. Please open the package immediately upon receipt, examine carefully, and if not satisfactory, advise us at once. All of us make errors once in a while and if any of the bulbs are found to be not as represented, we shall either refund your money on their return, or we will replace the unsatisfactory stock. However, we can at no time be liable for more than the original amount paid for the bulbs. All orders are placed with this understanding. All stock has been state inspected.

Sensational Thrifty Buyers' Collections

For the past several years, these collections have been exceedingly popular. The demand has been so great and the satisfaction derived from them so much that we are again offering this planting stock at bargain prices. From unsolicited letters we have been informed how surprised they were not only by the size of the blooms but also by the fine large crop of corms harvested in the fall from these small bulbs (corms) and the fact that they were able to garner a large stock of name varieties. On late orders please name at least one extra variety we may substitute in case we are sold out of any variety ordered. All bulbs are No. 5 or No. 6 size as ordered.

THERE IS NO BETTER OR CHEAPER WAY TO GET A LARGE STOCK OF NAME VARIETIES THAN BY BUYING THRIFTY BUYERS' COLLECTIONS. THESE ARE PREPAID TO YOU.

The All-America Award Winners

APPLEBLOSSOM (Pl. Pat. 1517)

This exquisitely tinted gladiolus is snow white with rose-pink edges. It is high on the list of the world's most beautiful glads.

BEN-HUR (P.A.F.)

This stalwart new gladiolus produces perfect spikes time after time. A soft, harmonious shade of rose-pink. Beautiful spike formation and fancy ruffling.

CARIBBEAN (Pl. Pat. 1654)

A medium shade of blue-violet of extreme vigor. Florets are precisely styled in double-row placement. Every flower lover will want this striking novelty in his garden.

CHINA BLUE (Pl. Pat. 2062)

An extremely beautiful light blue of robust growth. A-1 performance plus with amazing consistency. The largest blue gladiolus in commerce today.

EMPEROR (Pl. Pat. 1655)

A rich, royal purple that presents a stately display. Very tall, majestic spikes carried erect on robust plants. Color-fast even in summer heat.

FRISKY (P. A. F.)

A lively, frolicksome little glad. Wonderful for show, for cutting or for arrangements. Easily opens 7 or 8 velvety deep scarlet florets on straight, slender spikes. It is essentially a small glad, but it may have one or two florets slightly oversize if too well grown.

GOLDILOCKS (P. A. F.)

Here is a charming little glad to enhance your garden, home or any spot you'd like to brighten with flowers. Goldilocks has everything — lovely golden color, beautiful, waxy sculptured form and fine growing habits. It is ideal for those gay, informal arrangements your friends will admire. Try it and you'll agree Goldilocks is as beguiling as its "story-book" name. 1963 release.

GYPSY DANCER (Pl. Pat. 2063)

A rich, vibrant orange and chartreuse. This fine new introduction symbolizes a gay, lively and supple gypsy in a care-free dancing mood. Wonderful for arrangements.

HORIZON (P.A.F.)

A dawn fresh lavender pink of inherent lustre and sparkling sheen. The formally-placed florets are carried on towering spikes that are remarkably uniform in height and performance.

JOYOUS (Pl. Pat. 1832)

This elegantly styled deep rose is one of the most spectacular glads ever introduced. A resplendent touch of color in a floral composition and a showy addition to any glad planting.

LANDMARK (Pl. Pat. 1933)

This huge, cream colored gladiolus has taken the country by storm. The list of flower show championships to its credit is amazing. Producer of simply tremendous spikes.

LITTLE PANSY (Pl. Pat. 1934)

The first All-America "tiny tot". This petite and colorful little gladiolus with blue florets and deep violet blotches will beguile you with its lively personality.

MAYTIME (Pl. Pat. 1591)

You will love Maytime for its long ribbon of pink and white color, and for its remarkable ease of growth. Grand for cutting and a gem for the home garden.

MORNING SUN (P. A. F.)

A glorious, bright-as-the-sun deep yellow. This new addition to the elite circle is majestically tall with graceful, sturdy spikes having up to 22 buds. The color is intense and smooth, giving a carved appearance to the beautifully formed florets. You'll love Morning Sun's beauty and want lots of it in your garden. (1963 release).

ROYAL STEWART (Pl. Pat. 1339)

Wonderfully clear, brilliant red color; long lasting. A real he-man red, straight and tall. Winner of many outstanding awards.

RUSTY (Pl. Pat. 1781)

The first All-America "smoky" and what a glad this is—beautiful, big, tall and husky! The chocolaty red florets are formally placed on long, heavy spikes.

SPARKLER (Pl. Pat. 1741)

A gay, happy combination of yellow and red color. Beautifully ruffled and fluted, giving a butterfly effect. Vigorous and easy to grow.

THUNDERBIRD (P.A.F.)

A new, captivating color of fiery, vibrant, deep persimmon. Strong and robust in growth, and spikes of championship calibre are produced with ease. A thrill to both the beginner and the most critical gladiolus fancier.

VICTORY (P. A. F.)

This brilliant new scarlet proved itself superior in trial gardens all over the U.S. and southern Canada, so that it truly merits the name VICTORY. It opens 8 to 10 saucer-like, glowing scarlet florets at one time. Lofty spikes of precision like build follow one another right down the row. You will agree that Victory is a rare find. 1963 release.

All 19 of The ALL-AMERICA GLADS Are Priced As Follows: 1 bulb in a bag. — .35 each bulb

1.00 for 3 bulbs	6.50 for 24 bulbs
3.45 for 12 bulbs	9.45 for 36 bulbs

1 bulb each of the 19 All-Americas for \$5.95

The All-America Selections are packaged and patented for your protection, are sold by all reputable dealers at uniform prices — the lowest ever for new introductions.

GOLDEN STAR

RED HEAD

XANADU

STANDOUT

GOLDEN TRUMPET

XANADU (Baerman-Milo '61) 470-85

Looking for novelties? Here is an improved Blue Devil that will attract plenty of attention in your garden or in your exhibit at a glad show. Xanadu grows about 55 inches and throws a flowerhead holding 18 to 20 buds with 7 to 8 open. The uniquely blue-blotched deep violet blooms are well formed and seem to signal to one from afar. In our fields they seem to hold a viewer's attention. Recommended for those who like something different.

Lge., ea. 1.50; Med., 1.00; Sml., .60; 10 Blbts., 1.50.

Unit: 1 Lge., 2 Med., 5 Sml., 50 Blbts., 12.50.

STANDOUT (Baerman-Milo '61) 534-90

An outstanding beauty, this lovely creation is for the fastidious glad lovers and growers who appreciate the very best. A new conception of steadiness, strength and elegance. The achievement of excellent esthetics and unmistakable supremacy is a tribute to the diligence of the hybridizer. A connoisseur's choice with unmistakable supremacy. Color is deep salmon-pink with an inconspicuous lighter throat. The blooms are 6 inches across but look even larger because of their roundness. With 10 open and plenty in color out of as many as 29 buds on a 5 foot spike, this really is a standout. Rapid propagation makes possible a modest starting price for a wonderful variety.

Lge., ea. .75; Med., .50; Sml., .25; 5 Blbts., .50.

Unit: 2 Lge., 4 Med., 10 Sml., 100 Blbts., 10.00.

GOLDEN TRUMPET (Baerman-Milo '61) 416-90

Lightly frilled medium-deep yellow with a narrow buffy edge. Almost a self. The most rampant grower among yellows that I have ever seen. Even the bulblet foliage was four feet tall. An all-around good yellow, stalwart and well-mannered. You can't beat this for propagation, hence our very modest introductory price. Growing Golden Trum-

pet will give you an emotional experience never known to you before. No other glad offers you so much or gives you such adaptability. After the calm, following the emotional experience, you suddenly realize, here is that superb glad!

(L 1-.75; 10-6.00)

(M 1-.50; 10-4.00)

(S 1-.25; 10-2.00)

(Blbts. 10-.50; 100-4.00)

GOLDEN STAR (Baerman-Milo '61) 416-75

The coupling of two yellows—Prospector and Golden Sunshine—materialized in Golden Star and incorporating in it the finer qualities of both parents, making this a significantly better glad than either of them. This variety is a new concept in glad culture that will benefit both glad fans and growers. A medium deep yellow that is tall and stately with florets of heavy substance and exquisitely ruffled. This is an unusually distinctive beauty with a very attractive starry effect. The spikes are tall, having 20 to 22 buds and 7 to 8 open with fine attachment. Should be an excellent commercial.

Lge., ea. .75; Med., .50; Sml., .25; 5 Blbts., .50.

Unit: 2 Lge., 4 Med., 10 Sml., 100 Blbts., 10.00.

RED HEAD (Baerman-Milo '61) 446-80

There is so much to please you about Red Head, one of the most satisfying glads you ever tried. Serenely smooth in texture and incredibly gratifying color combination add a refreshing hint of new beauty and lusty stamina to this color class. The plants are tall, vigorous and healthy and sport a long 36 inch flowerhead on which are borne 22 to 24 buds with 10 open blooms. The florets are spectrum red with a small white throat. Plants are vigorous and spikes can easily attain a field height of 65 inches or more. A superb cutter. Put this on your "must" list. Strongly recommended.

Lge., ea. 1.00; Med., .75; Sml., .50; 5 Blbts., .50.

Unit: 1 Lge., 2 Med., 5 Sml., 50 Blbts., 10.00.

General List of Recent Introductions

All our bulbs are plump and healthy. Small bulbs usually produce blooms late in the season. Bulblets seldom bloom the first year and a small percentage always fail to germinate—the rest mature mostly into medium and small bulbs. Large bulbs always produce the finest exhibition spikes and sometimes throw several spikes from the bulb. Medium sized bulbs give excellent spikes particularly when planted early in the season. Small sized bulbs can produce good spikes and, as a rule, seldom give much more than medium sized spikes, but produce large bulbs for the following season.

Large bulbs are 1¼ inches in diameter or over; medium are ¾ inch to 1¼ inches; and small bulbs are ½ to ¾ inch.

L = large, M = medium, S = small, blbts. = bulblets.

ABIQUA (Baerman '60) 480-85

A supremely beautiful smoky of heavy substance and superb ruffling. Color is light rose overlain with a distinct silvery sheen—a real changeable-silk color. This is one smoky that deserves the adjective "exquisite". Highly recommended.

(L 1-.50; 10-4.00)

(M 1-.35; 10-2.80)

(S 1-.25; 10-2.00)

(Blbts. 10-.40; 100-3.00)

AFRICAN QUEEN (K&M '63) 558-85

This year we have the privilege of introducing a K&M variety of exceptional quality a year before their own planned introduction. The best and largest black red that we have ever seen. We are predicting that this variety will be the leader in its class in a very short time. Opens 8 well placed 5½ inch florets with 8 more showing color, of very heavy substance and beautiful sheen, on a 24 bud spike. Has received A-Plus ratings at Canadian and Ohio Test Gardens in 1960.

(L 1-3.00; 10-24.00)

(M 1-2.00; 10-16.00)

(S 1-1.00; 10- 8.00)

(Blbts. 1- .25; 10- 2.00)

ALPENROSE (Baerman '60) 454-85

This breathtaking beautiful rich cerise rose with snowy throat blotch has a well-stacked, stretchy spike of 8-9 flat-open and beautifully ruffled round florets. The natural successor to Chamouny. One of our most popular introductions.

(L 1-.50; 10-4.00)

(M 1-.40; 10-3.20)

(S 1-.25; 10-2.00)

(Blbts. 10-.50; 100-4.00)

AZTEC (Larus '62) Class 414-60

Aztec is a large and vigorous 400 size glad. The 4½ to 4¾ inch florets are a distinctive and beautiful medium buff yellow, slightly deeper in the throat. They are moderately ruffled, wide open and very tightly attached to the 27 to 32 inch flowerheads. Of the 17 to 20 buds, 5 to 7 open at a time on plants reaching a total height of 55 to 60 inches. Earlier than practically any named variety and an easy cutter. Health and propagation are excellent.

(L 1-1.00; 10-8.00)

(M 1- .75; 10-6.00)

(S 1- .50; 10-4.00)

(Page B)

BAKER'S DOZEN (Larus '62) Class 442-85

Here is one, in the hands of the real showman, will produce some of the most precise and impressive spikes ever shown. The 5¼ inch florets are a clean, medium pink with a light yellow throat; they are ruffled and open flat—up to 13 at a time in perfect formal placement. The vigorous foliage shoots a flowerhead of 20 to 24 buds to a length of 30 to 36 inches. Total plant height is 57 to 65 inches. In our many years of growing glads, no other variety has had the ability to produce such outstanding show spikes. Health and propagation are excellent.

(L 1-1.50; 10-12.00) (M 1-1.00; 10-8.00)
(S 1- .60; 10- 4.80) (Blbts. 10- .75; 100-6.00)

BAND WAGON (Summerville '60) 447-80

An extremely vigorous glad that produces 66 inch plants with flowerheads up to 36 inches long and 10 of 26 buds opening at once. The color is clean light red with a white throat. It is certain to become a frequent Grand Champion.

(L 1-.75; 10-6.00) (M 1-.50; 10-4.00)
(S 1-.35; 10-2.80) (Blbts. 10-.75; 100-6.00)

BEAU GESTE (Fischer '62) 455-90

A deep rose and a dandy one. This color is set off quite well by the nicely distinctive cream-yellow blotch — all in perfect harmony with the predominating color of the flower. Eight or more of the large florets bloom out at one time, on a very good spike carrying 18 to 20 buds. The head is tall and ramrod straight; the florets are heavily ruffled and of heavy substance with good placement. All in all, the color is most intriguing.

(L 1-1.00; 10-8.00) (M 1- .75; 10-6.00)
(S 1- .50; 10-4.00) (Blbts. 10-1.00; 100-8.00)

BETHLEHEM (Baerman-Milo '61) 400-70

This majestic variety grows up to 55 inches tall or better. It never fails to produce a good spike on which 18 to 20 buds are cuddled, having 8 open and several more in color. The ruffling and roundness of the blooms make this an outstanding glad and of great value to the florist. Although somewhat similar to White Friendship, we find it larger and more ruffled. Because it is early and beautiful, this variety should be in great demand by cut flower growers.

(L 1-.75; 10-6.00) (M 1-.50; 10-4.00)
(S 1-.25; 10-2.00) (Blbts. 10-.50; 100-4.00)

BLACK JACK (K&M '58) 458-80

Very dark velvety maroon, almost black. Opens 8 on a 50 to 55 inch spike. Has an "Award of Merit" in Holland and voted best dark variety.

(L 1-.40; 10-3.20) (M 1-.30; 10-2.40)
(S 1-.20; 10-1.60) (Blbts. 15-.25; 100-1.50)

BLEEDING HEART (Baerman '61) 301-75

This happily-named white and snappy scarlet blotch surrounded by an eighth-inch band of clear yellow is an excellent novelty which should prove immensely popular. Bleeding Heart opens eight or more blooms with formal placement on precisely perpendicular stems. A heavy bloomer from bulblets. Excellent propagator.

(L 1-.50; 10-4.00) (M 1-.35; 10-2.80)
(S 1-.25; 10-2.00) (Blbts. 10-.50; 100-4.00)

BLUE ANGEL (Barrett '58) 470-80

This was recommended to us in '58 and is highly rated in Canada. It is a blue, a medium blue, with practically

no throat mark and is extremely vigorous, tall and massive. The stems are long and straight and hold 19 to 21 buds of which 8 ruffled florets bloom out nicely.

(L 1-.30; 10-2.40) (M 1-.20; 10-1.60)
(S 2-.20; 10- .80) (Blbts. 15-.25; 100-1.00)

BLUE DIAMOND (Mode '57) 470-80

An improved shade of medium blue with a small feather on a creamy throat. Opens 6 on a 25 inch head and is a good grower in every respect.

(L 1-.25; 10-2.00) (M 1-.20; 10-1.60)
(S 2-.30; 10-1.20) (Blbts. 10-.25; 100-2.00)

BLUE LAKE (Baerman '60) 470-85

The blue that is due to supplant Caribbean because of its greater blueness, larger size and trimly tailored spikes. Nice ruffling and starchy midribs give Blue Lake lots of character.

(L 1-.30; 10-2.40) (M 1-.25; 10-2.00)
(S 2-.25; 10-1.00) (Blbts. 20-.30; 100-1.50)

BLUE LOU (K&M '60) 476-80

One of the finest of all blues. A mid-blue with a violet throat that opens 6 to 8 graceful florets on a medium tall spike. Blue Lou is one of the most outstanding blues to date. Should become a great commercial. Healthy.

(L 1-.20; 10-1.60) (M 2-.30; 10-1.20)
(S 3-.25; 10- .80) (Blbts. 25-.25; 100- .75)

BLUE PACIFIC (Baerman '60) 470-80

We were thrilled anew at the five-foot spikes of this refreshing, clean-cut blue in our planting this past summer. Crystal-clear and fleck-free, the trim blue spikes have the carrying power of delphiniums. Don't miss this pre-eminent blue.

(L 1-.80; 10-6.40) (M 1-.60; 10-4.80)
(S 1-.40; 10-3.20) (Blbts. 10-.75; 100-3.50)

BLUE RIBBON (Baerman '61) 370-80

This 24-bud medium-light blue opens a real ribbon of blooms on spikes about 60 inches tall. Its spire-like flowerheads remind one of delphiniums and it should be a good glad to plant in groups among perennials. Blue Ribbon never flecks. Some cut flower growers report a demand by florists for these newer and bluer blues.

(L 1-.40; 10-3.20) (M 1-.25; 10-2.00)
(S 2-.30; 10-1.20) (Blbts. 10-.40; 100-3.20)

BLUE SMOKE (Rich '57) 586-70

A heavily ruffled mulberry blue, with a throat blotch of glowing smoky salmon. It has excellent texture, attachment, facing and spacing, with healthy foliage. It is tall growing with very strong straight stems, reaching about 60 inches in height, with 28 to 30 inch flowerheads, 5½ inch blooms, 19-22 buds and has 6-9 open florets. Fine show glad and an excellent commercial.

(L 1-.20; 10-1.60) (M 2-.30; 10-1.20)
(S 3-.25; 10- .80) (Blbts. 25-.25; 100- .75)

BLUSHING BRIDE (Arenius '61) 440-80

The deep blush of a bride, aptly describes the ravishing beauty of this exquisite glad. The color is a bright light rosy pink, about the shade of the oldtime favorite, Tivoli. Besides its great beauty, it grows up to 5½ ft. tall, with 7-8 5" blooms open on a long flower head. Above average propagation with healthy foliage and bulbs. Should make a good commercial variety.

(L 1-.50; 10-4.00) (M 1-.40; 10-3.20)
(S 1-.30; 10-2.40) (Blbts. 10-.50; 100-4.00)

BRONZE BEAUTY (Arenius '61) 482-85

Bronze Beauty is a ruffled large coppery smoky, shading to deeper lines of dark brown on the edges and blending to a bronzy tan interior. This exotic rich blend of colors has heavy substance and is ruffled and fluted opening 6-7 florets on a 55" spike. Good grower and propagator.

(L 1-1.00; 10-8.00) (M 1-.75; 10-6.00)
(S 1-.50; 10-4.00) (Blbts. 2-.25; 100-8.00)

BROWN BOMBER (Summerville '62) 596-85

One of the few really good Giants—vigorous, heavy-leaved plants throwing spikes that stand from 57 to 65 inches tall with flowerheads of 32 to 36 inches and carrying up to 27 buds. Opens 8 to 10 huge 6½ inch florets in formal placement. Basic color is chocolate brown, lighter toward the edges and with a red throat marking. Has won Seedling Championships in Illinois, Maryland, Pennsylvania, New Jersey, and New York. Florets are wide open and lightly ruffled. Bulb production and germination are good. One of the very few beautiful brown glads. A sure show winner and a conversational commentary in any garden.

(L 1-1.00; 10-8.00) (M 1-.75; 10-6.00)
(S 1-.50; 10-4.00) (Blbts. 5-.50; 100-8.00)

BURGANDY (Arenius '61) 448-80

As the name implies the color of this glad is a sparkling wine colored rosy red; a little deeper in the throat. It opens 8-9 extremely ruffled well placed and faced florets of 20-22 buds, on a tall 5 ft. spike. This should be a winner in its color class at the shows because of its ruffling and ability to open many precisely placed blooms on a long flower head. I am always impressed with the beauty and perfection of the ruffling of this variety.

(L 1-1.00; 10-8.00) (M 1-.75; 10-6.00)
(S 1-.50; 10-4.00) (Blbts. 2-.25; 100-8.00)

CANYON LADY (Baerman '62) 400-85

One of the best white introductions in years. Very outstanding in every respect. It grows very tall with martinet-like spikes bearing 20 to 24 buds with 8 to 10 well placed florets open at a time and 6 more showing color. The blooms are a nice white with a creamy throat and possess a good degree of ruffling. We are certain that this variety will be tops for show and commercial uses.

(L 1-1.00; 10-8.00) (M 1-.75; 10-6.00)
(S 1-.50; 10-4.00) (Blbts. 5-.50; 100-8.00)

CHEMAWA (Baerman '59) 486-75

A smooth, deep, old rose color with a rich ivory throat. Opens 8 ruffled well placed florets on tall spikes. Considered by many one of the finest new smokies.

(L 1-.25; 10-2.00) (M 2-.30; 10-1.20)
(S 5-.40; 10-.75) (Blbts. 10-.40; 100-3.20)

CHINESE YELLOW (Cotter '58) 417-90

A very tall, extremely vigorous grower. The green buds first turn to greenish yellow and on opening the florets are a deep golden yellow of an unusual shade with a few reddish lines on the throat. Opens 8 on a 20 to 22 bud head. A very unusual novelty.

(L 1-.35; 10-2.80) (M 1-.25; 10-2.00)
(S 2-.25; 10-1.00) (Blbts. 10-.25; 100-2.00)

CLIMAX (Baerman '61) 450-85

This ultra-regular rose pink with beautiful round florets shares a trait found in many prime cut flower varieties: bulbs of the same size all bloom simultaneously, making

a row an impressive sight and facilitating quick cutting. Many garden visitors snapped a color picture when they came to this one! 23 buds; 63 inches tall.

(L 1-.60; 10-4.80) (M 1-.40; 10-3.20)
(S 1-.20; 10-1.60) (Blbts. 10-.60; 100-4.80)

CONCERTO (Larus '60) 456-85

A most striking combination of medium deep rose with a conspicuous very deep rose throat. Opens 8 to 10 in perfect formal placement. Spikes stand 58 inches tall and the heads measure up to 32 inches with a possibility of grand champion caliber.

(L 1-.75; 10-6.00) (M 1-.50; 10-4.00)
(S 1-.35; 10-2.80) (Blbts. 10-.75; 100-6.00)

COPPERSHEEN (Flad '55) 420-85

Here is another unusual glad and somewhat new in tone. The florets are copper-colored with a rich and pleasing plum-colored blotch in the throat and medium ruffled. It opens 6 to 8 on a tall, willowy, 20 bud spike. A pleasing number and a good commercial.

(L 1-.50; 10-4.00) (M 1-.35; 10-2.80)
(S 1-.25; 10-2.00) (Blbts. 25-.50; 100-1.50)

CRONUS (Rupert '58) 326-80

Ruffled deep orange with throat of golden yellow and spikes of 21 to 25 buds. Opens 8 to 10 well placed florets on a 28 inch flowerhead. Spikes are very tall. One of the best introductions in 1958.

(L 1-.25; 10-2.00) (M 2-.25; 10-1.00)
(S 3-.25; 10-.70) (Blbts. 20-.25; 100-1.00)

DAIRY QUEEN (Griesbach '62) 410-95

A new cream white that will please growers and florist trade. The lightly ruffled blooms, with their deeper cream throat, are nicely placed on a 36 inch head bearing 24 buds with 7 open. It has received an approval from N.A.G.C. Trial Committee. Dave Morey grew this one and rates it as excellent for exhibition and gave it a 90 for color. This past season Dairy Queen was a far better cutter than Lorelei and better liked by the florists.

(L 1-1.00; 10-8.00) (M 1-.75; 10-6.00)
(S 1-.50; 10-4.00) (Blbts. 5-.50; 100-8.00)

DAMASCUS (Larus '61) 596-80

The large, heavily ruffled florets are a rich mulberry-tan with a prominent clean white throat, and possessed of a beauty found in very few of the smokies or browns. A robust grower with spikes 5 feet tall and 8 of 19 to 23 buds open on a 30 to 34 inch flowerhead.

(L 1-1.00; 10-8.00) (M 1-.75; 10-6.00)
(S 1-.50; 10-4.00) (Blbts. 5-.50; 100-8.00)

EARLY SPRING (Baerman '60) 440-65

This is one of the most valuable new commercial varieties to date. A cool light pink that opens 6 to 8 on a well balanced spike of 50 to 55 inches. Cut flower growers who have grown this have been enthusiastic about its prospects and admired its potentiality.

(L 1-.25; 10-2.00) (M 2-.30; 10-1.20)
(S 2-.20; 10-.80) (Blbts. 25-.25; 100-.75)

EIGHTH WONDER (Baerman '59) 467-70

Very early and a tall strong grower. Color is a soft, light purple with a large cream throat. One spike is a bouquet in itself as it opens about 8 large florets at one time. Bulb growth is phenomenal making No. 1 size easily.

(L 1-.30; 10-2.40) (M 1-.20; 10-1.60)
(S 2-.25; 10-1.00) (Blbts. 25-.25; 100-.75)

ETERNAL CITY (Baerman-Milo '61) 476-85

You'll love the dramatic beauty of this glad's exciting color tones. You can't imagine how glorious this glad can be until you have grown it and seen it! Words can only hint at its beauty and the elegance of the blooms with the precise tailoring effect of the petals. You, too, will luxuriate in its new look. Eternal City is a good grower — 55 inches or better and healthy. The flowerheads are nice, bearing 18 to 20 buds with 8 open. Blooms are medium blue with a white throat. Florets are needle-pointed and daintily ruffled. This blue should have unusual cut flower appeal. Fine also for planting among perennials, where its blue spires remind one of delphiniums. Good propagator, but stock is still limited.

(L 1-3.00; 10-24.00)
(S 1-2.00; 10-16.00)

(M 1-2.50; 10-20.00)
(Blbts. 2- .50; 10- 2.00)

FASHION FLAME (Arenius '61) 454-75

This seedling of the famous All America variety Royal Stewart is an improvement over it in two vital respects; color and health. The color is a clear, light red, and so far the health and propagation have been excellent. It consistently produces long straight spikes that open 8-9, in formal double row placement.

(L 1-.50; 10-4.00)
(S 1-.30; 10-2.40)

(M 1-.40; 10-3.20)
(Blbts. 10-.50; 100-4.00)

FLORELLA (Warr' 59) 354-85

Lovely clear rose with a deeper rose throat. On its 25 inch head, there are 22 buds of which 8 open. It is a tall grower, attaining a field height of 60 inches. Beautiful color, ideal exhibition spikes and fine plant habits are characteristic of Florella.

(L 1-.25; 10-2.00)
(S 2-.20; 10- .80)

(M 2-.30; 10-1.20)
(Blbts. 25-.25; 100- .75)

FLUFFY RUFFLES (Baerman '62) 414-90

One of the most heavily ruffled of all glads and certainly having the heaviest substance of any variety we know of. A tall grower opening 6 to 8 on very tall spikes, this variety has one fault—which is misplacement of some florets at times. Regardless of this, we rate this as one of the most beautiful glads grown and we are sure you will agree.

(L 1-1.00; 10-8.00)
(S 1- .50; 10-4.00)

(M 1-.75; 10-6.00)
(Blbts. 5-.50; 100-8.00)

GIGI (Milo '60) 460-80

A tall and stately lavender, with its enchanting white throat, Gigi has near perfect qualities and unusual stamina. The sturdy green plants throw tall spikes that have 20 buds with 7 to 9 well open florets. This creation should win honors in its color class. A mighty fine commercial that will become immensely popular as soon as there is a better distribution of stock.

(L 1-.50; 10-4.00)
(S 1-.25; 10-2.00)

(M 1-.35; 10-2.80)
(Blbts. 10-.25; 100-2.00)

GINA (Harris '57) 541-85

Stately and beautiful Gina will win your heart. The color is a soft, light rose-pink and its beauty is strikingly accentuated by its light golden yellow lower petals. Very tall and vigorous with florets so large that it borders on the mammoth class. Habits are perfect, including ideal placement and facing, and excellent substance. 8 to 10 florets open at once, each being 6 inches or larger, and wide open. But best of all, are the dimensions of its height and flower spike—for it is 5 to 5½ feet tall, with a long flowerhead, and always straight.

(L 1-.25; 10-2.00)

(M 2-.30; 10-1.20)

GLACIER (Arenius '59) 400-90

A very tall, stately ruffled white. The heavily textured cream-throated 5¼ inch florets have white stamens and a touch of cool green deep in the throat. 7 to 9 florets open on spikes of 24 buds. Placement and attachment are exceptionally good. One of the finest '59 introductions.

(L 1-.25; 10-2.00) (M 2-.35; 10-1.40)
(S 2-.25; 10-1.00) (Blbts. 10-.25; 100-2.00)

GOLDEN MIRACLE (Barrett '59) 416-90

Beautiful, clean, medium yellow with no markings but carries a slight chartreuse throat. A healthy, vigorous grower with tall straight stems that hold 7 to 8 heavily ruffled, well placed and attached florets on a 26 inch head carrying 24 buds.

(L 1-.25; 10-2.00) (M 2-.30; 10-1.20)
(S 3-.30; 10-.80) (Blbts. 25-.25; 100-.75)

GOLDEN ROSETTE (Baerman '61) 416-100

This is the tallest and largest yellow from this originator. In 1959 we had Golden Rosette 72 inches tall, with as many as 11 beautifully ruffled wide-open, waxy florets open at a time on 21-bud spikes. Golden Rosette is a tremendously impressive yellow.

(L 1-.75; 10-6.00) (M 1-.50; 10-4.00)
(S 1-.35; 10-2.80) (Blbts. 10-.75; 100-6.00)

GOLDEN PHEASANT (Kroon '61) 426-85

A very beautiful golden-orange that grows up to 55 inches producing straight spikes on which are 17 to 19 buds with 6 to 8 open. In our opinion this is the most beautiful orange variety on the market today. Growth habits are very good. Tailored to perfection with their grace and elegance, you'll find these a treasure to hold and behold.

(L 1-.35; 10-2.80) (M 1-.25; 10-2.00)
(S 1-.20; 10-1.60) (Blbts. 10-.30; 100-2.40)

GOLIATH (Baerman '61) 534-85 days

This enormous deep salmon pink was chosen Champion Seedling at the Western International Glad Show at Sumner, Washington, in 1960, and well it might, since its performance rivals even its size. We counted spikes with ten six-inch blooms open at once out of a total of 26 buds (many in color) with the entire row of large bulbs in bloom at once with ramrod spikes 66 inches tall.

(L 1-.80; 10-6.40) (M 1-.60; 10-4.80)
(S 1-.40; 10-3.20) (Blbts. 10-.50; 100-4.00)

HIGH FASHION (Baerman '61) 460-90

Another 66 inch variety which we had hoped to name "Skyscraper." Good lavenders are scarce and this clean true lavender self should prove an excellent cutter because of its exemplary habits. Fine propagator.

(L 1-.50; 10-4.00) (M 1-.35; 10-2.80)
(S 1-.25; 10-2.00) (Blbts. 10-.25; 100-2.00)

HI-SPOT (Larus '61) 441-88

Hi-Spot combines very nicely the virtues of fine growth habits and strikingly beautiful florets. It will win its share of ribbons and will be of real value as a decorative glad for the home — a most important consideration. The 5 inch ruffled florets are wide open and are a bluish pink with a bright scarlet blotch. Its distinctiveness and beauty earned it an American Home achievement medal at the 1960 Connecticut show. Spikes are 5 feet tall with 6-7 open on a 28 inch flowerhead and 19-21 total buds. A consistent healthy grower that never fails to draw enthusiastic comment.

(L 1-.60; 10-4.80) (M 1-.40; 10-3.20)
(S 1-.30; 10-2.40) (Blbts. 10-.60; 100-4.80)

INKSPOT (Fischer '60) 471-85

Inkspot has received many favorable comments from various trial gardens over the country. It gives a fine account of itself most consistently so we do not hesitate to recommend it highly. The towering spikes never crook, and 8 to 10 florets open at a time in the field are commonplace for Inkspot. Deep blue throats stand out dramatically against the clean, recurved and slightly needlepointed light violet florets. For dependable growth, regular spike production and robust, healthy bulbs, Inkspot is hard to beat.

(L 1-.30; 10-2.40) (M 1-.20; 10-1.60)
(S 2-.20; 10-.80) (Blbts. 25-.25; 100-1.00)

LAVANESQUE (Baerman '60) 464-75

This tall, ribbony blue-lavender paling to a lighter throat opens 10 to 13 florets at a time on beautifully formal spikes. The most floriferous of all lavenders and a fine cut flower. Waxy and nicely ruffled.

(L 1-.30; 10-2.40) (M 1-.20; 10-1.60)
(S 2-.25; 10-1.00) (Blbts. 10-.25; 100-1.50)

LAVENDER FRILLS (Baerman '60) 364-80

An arrangement glad par excellence with neat formal spikes holding 9 open. Florets are of heavy substance and lavishly frilled. A favorite with florists.

(L 1-.30; 10-2.40) (M 1-.25; 10-2.00)
(S 2-.25; 10-1.00) (Blbts. 20-.30; 100-1.20)

LAVENDER SPIRE (Baerman '60) 460-90

This 60 inch true lavender with 33 inch flower heads is an ideal late cut flower and exhibition variety. One of our tallest glads having 8 open. Sure to become very popular with cut flower growers.

(L 1-.35; 10-2.80) (M 1-.25; 10-2.00)
(S 2-.30; 10-1.20) (Blbts. 10-.20; 100-2.00)

LILAC AND CHARTREUSE (Baerman '60) 361-75

Want something different? Here it is! True blue lilac, heavily ruffled, with wierdly contrasting chartreuse-green throat and green blotches on the upper petals as well. Utterly novel! This is a real novelty among glads and very attractive, too. A honey in arrangements.

(L 1-.100; 10-8.00) (M 1-.75; 10-6.00)
(S 1-.50; 10-4.00) (Blbts. 10-1.00; 100-8.00)

MASTERPIECE (Klein '58) 464-80

Outstanding lightly ruffled deep lavender that can win in most any show. Opens 10 with 10 in color on a tall plant. Easy grower and fine propagator.

(L 1-.25; 10-2.00) (M 1-.20; 10-1.60)
(S 2-.25; 10-1.00) (Blbts. 10-.25; 100-2.00)

PINK FAVORITE (Baerman '60) 445-85

A row of Pink Favorite has the precise perpendicularity of a West Point dress parade. The massive 10 open deep pink or light red spikes are simultaneous bloomers. Every spike is a bouquet. Exceptionally fine cutter.

(L 1-.30; 10-2.40) (M 1-.25; 10-2.00)
(S 2-.35; 10-1.40) (Blbts. 10-.25; 100-1.50)

PINK PARASOL (Baerman '60) 440-85

This waxy frilled pure pink outdid itself again this past season. It looks exactly like the picture. Not just "another pink," but an extra fine pure pink of lovely form and excellent habits.

(L 1-.25; 10-2.00) (M 2-.30; 10-1.20)
(S 2-.20; 10-.80) (Blbts. 25-.25; 100-.75)

PINK PROSPECTOR (Baerman '60) 440-85

The most beautiful flesh pink glad we know. The glowing underlay of gold shines forth in the throat. Exquisite frilling adds great charm of form. Eight or more open blooms on fine stretchy heads make this a topmost beauty. A top seller.

(L 1-.35; 10-2.80) (M 1-.25; 10-2.00)
(S 2-.30; 10-1.20) (Blbts. 10-.25; 100-2.00)

PROFILE (Flad '58) 451-85

A glad of unusual beauty and color combination. A frosty, clean, light rose with a large light yellow throat. Very prettily ruffled and of heavy texture. Opens 7 on 22 bud spikes.

(L 1-.25; 10-2.00) (M 2-.30; 10-1.20)
(S 2-.20; 10-.80) (Blbts. 25-.25; 100-.75)

PURPLE SPLENDOR (Baerman '61) 466-85

This unusually stretchy purple self looks like an improvement on King David. It is a little less of a red-purple than the latter and more of a true purple. Attractive ruffling and velvety texture make this a very luxurious flower. Good purples are scarce and we think you will like this one. Thirty-inch heads with 23 buds are typical.

(L 1-.35; 10-2.80) (M 1-.25; 10-2.00)
(S 1-.25; 10-2.00) (Blbts. 10-.25; 100-1.00)

RAINIER (Baerman '60) 300-85

Fanciers write that they have had as many as 11 open florets on this stretchy, classy, ruffled white. It is an outstanding performer with up to 28 buds. The President of the Michigan Glad Society rates this and Pink Prospector as among the Ten Best show glads.

(L 1-.35; 10-2.80) (M 1-.25; 10-2.00)
(S 2-.35; 10-1.40) (Blbts. 10-.25; 100-2.00)

REX (Larus '62) Class 466-90

Few glads possess the clean, rich color found in Rex. The ruffled and fluted 5 inch florets are a deep rose purple with a blending, to a deeper purple throat and of heavy substance. 7 to 10 open at a time in formal placement on long heads with all of the 18 to 21 buds well spaced even at the tip. The 55 to 60 inch spikes are a rare combination of beautiful, well formed flowers with spikes that are impressive to the man with a tape measure. A fine potential for exhibition as well as cut flower use.

(L 1-1.50; 10-12.00) (M 1-1.25; 10-10.00)
(S 1-1.00; 10-8.00) (Blbts. 5-.75; 100-12.00)

RIMROCK (Kroon '59) 487-85

This is a very fine smoky pink with a very striking white throat or blotch. Florets are firmly attached and have excellent texture with 6 to 8 open. It has good facing and placement on a 54 inch straight, sturdy stem. The tip of each cut spike remains erect and blooms out perfectly. Bulb production and germination are excellent. We do not hesitate to recommend it as a worthy addition to the Glad Fraternity.

(L 1-.35; 10-2.80) (M 1-.25; 10-2.00)
(S 2-.30; 10-1.20) (Blbts. 25-.25; 100-.75)

RIVIERA (Fischer '59) 520-90

One of the best '59 introductions. A rich autumn-toned orange-buff with heavy substance. Florets are beautifully and delicately ruffled with 8 open on a spike of 20 buds. This is a beautiful variety and must be seen to be fully appreciated.

(L 1-.35; 10-2.80) (M 1-.25; 10-2.00)
(S 2-.30; 10-1.20) (Blbts. 10-.30; 100-2.00)

RIXEY (Kroon '59) 511-95

By far, one of the most sensational glads developed to date. It is a good grower, exceptionally strong with tall, straight spikes with up to 22 buds. Eight or more heavily ruffled six inch florets open at a time. Its elegance and wonderful substance, coupled with its lasting qualities and cut flower habits, make this glad a joy to growers and the flower trade. Rixey is a very beautiful soft cream with a deeper cream slightly darkening to yellow in the throat. Actually, a very gorgeous and pleasing color.

(L 1-1.00; 10-8.00) (M 1-.75; 10-6.00)
(S 1-.60; 10-4.80) (Blbts. 3-.25; 100-6.00)

ROSEDENE (Warr '59) 454-65

A sensational very early prospect for cut flower growers and exhibitors. The gorgeous, heavily ruffled pure rose 4 1/2 inch florets with clear white throats are needlepointed and are well attached on 26 inch heads carrying 20 to 22 buds. Field height 56 inches with good propagation.

(L 1-.25; 10-2.00) (M 2-.30; 10-1.20)
(S 2-.20; 10-.80) (Blbts. 25-.25; 100-.75)

SUNBURST (Baerman '59) 435-75

Everyone is looking for something really different. Here is one that is not only unique but a fine grower. A rich ruffled salmon pink surmounted by a brilliant explosion blotch of velvety scarlet and enhanced by a bright canary yellow tone.

(L 1-.30; 10-2.40) (M 1-.25; 10-2.00)
(S 2-.25; 10-1.00) (Blbts. 10-.20; 100-1.50)

SUNNYDALE (Baerman '61) 416—Late

We wanted to name this classy ruffled medium deep yellow "Gold Lace" because of the lacy quality of its ruffling, but found the name unavailable, so it became "Sunnydale". Spikes are fully 60 inches tall with up to 25 buds—unusual for a yellow. This looks like an excellent cut flower. Strongly recommended.

(L 1-.35; 10-2.80) (M 1-.25; 10-2.00)
(S 1-.20; 10-1.60) (Blbts. 10-.25; 100-2.00)

SUNSET BLAZE (Baerman '60) 334-85

A vivid but pleasing orange salmon color. Consistently opens 11 florets on very long heads. A show winner and an excellent cut flower. Our color picture of this variety is so accurate a description is superfluous.

(L 1-.50; 10-4.00) (M 1-.35; 10-2.80)
(S 1-.25; 10-2.00) (Blbts. 10-.40; 100-3.20)

TANARAMA (Seher '61) 491-85

Most of the smokies are a fusion or blending of the grey, tan or brown tones. In Tanarama we have a beautiful, clear, clean, light tan with a cream throat. Tanarama opens 6 lightly ruffled blooms on a 22 bud spike which is up to 5 ft. tall. It is extremely healthy and a most wonderful color for arrangements. Tanarama won the American Home Achievement Award at the N.E.G.S. Show at Framingham, Massachusetts, this past summer. It has never rated below "B" the few times shown as a seedling. We think Tanarama is one of the most beautiful of all smokies and a superlative decorative glad.

(L 1-1.00; 10-8.00) (M 1-.75; 10-6.00)
(S 1-.50; 10-4.00) (Blbts. 2-.25; 10-1.00)

TOPAZ (Baerman '59) 416-75

A welcome addition to the yellow class. The ruffled and fluted florets are well placed on a spike of 20 to 22 buds. Opens 8 to 9 with about 6 more showing color. This makes fine spikes for the real show fans and should be ideal for cut flower growers.

(L 1-1.00; 10-8.00) (M 1-.75; 10-6.00)
(S 1-.50; 10-4.00) (Blbts. 2-.25; 10-1.00)

TOP BRASS (Baerman '60) 416-95

Medium deep yellow of heavy substance and graceful ruffling holding up to 9 open blooms on spikes totaling 20 buds. A very satisfying, well-mannered yellow that makes a fine cut flower. Not as ruffled as Topaz but larger.

(L 1-.35; 10-2.80) (M 1-.25; 10-2.00)
(S 1-.20; 10-1.60) (Blbts. 10-.25; 100-2.00)

VANITY FAIR (Visser '59) 497-80

Very unusual smoky, a deep brown or garnet with white veins. Good tall grower with 6 to 8 open. There is nothing else like Vanity Fair and I recommend you try this if you like smokies.

(L 1-.25; 10-2.00) (M 2-.30; 10-1.20)
(S 2-.20; 10-.80) (Blbts. 25-.25; 100-.75)

VIOLET QUEEN (Baerman '59) 476-70

A large, healthy, rugged grower and about the largest early variety in the deep violet shade. Opens 8 on a medium tall spike. Color is much deeper than the picture.

(L 1-.30; 10-2.40) (M 1-.25; 10-2.00)
(S 2-.25; 10-1.00) (Blbts. 10-.25; 100-1.50)

VIVA (Harris '57) 420-90

A giant size, formal light buff or peach of enchanting beauty. The throat petals are a pure, clean, deep cream-white, outer petals are a clean buff or peach. A modified fluting adds to its appeal. Has five inch blooms, 22 to 24 buds with 8 to 10 blooms open and 6 to 8 buds in color. Florets are firmly attached and have wonderful substance. It has good facing and placement on a 60 inch straight sturdy stem. Capable of winning anywhere.

(L 1-.25; 10-2.00) (M 2-.30; 10-1.20)
(S 2-.20; 10-.80) (Blbts. 25-.25; 100-.75)

YELLOW JACKET (Baerman '60) 317-80

The originator considers this one of his top introductions. With up to 12 intensely ruffled 3 1/2-inch florets open at one time and with brilliant scarlet blotches enhancing the golden yellow color, it is as gaudy as a Roman holiday. The ribbony spikes are simply superb for arrangements. Yellow-jacket has 24 buds, is 60 inches tall. Even large bulbets make beautiful spikes; picture shows a spike from a No. 6 bulb. Stock this if you want a show winner!

(L 1-1.00; 10-8.00) (M 1-.75; 10-6.00)
(S 1-.50; 10-4.00) (Blbts. 10-.75; 100-6.00)

YELLOW SPIRE (Arenius '58) 414-85

A clear medium yellow sport of Patrol with faint red lines in its throat. Opens 9 to 11 large florets on a 20 to 22 bud spike. Like Patrol, it makes excellent exhibition spikes. A sensational show variety that should also become a leading commercial.

(L 1-.25; 10-2.00) (M 2-.30; 10-1.60)
(S 2-.20; 10-.80) (Blbts. 25-.25; 100-.75)

Standard One Price Varieties

The following popular varieties contain the best of the proven exhibition and commercial types and are being grouped at one standard price to enable our customers to select these varieties without looking up prices separately. Cost is no criterion of the charm and beauty of a Gladiolus. In most cases prices are not reduced to this low level until the variety has proven its worth. We don't offer a variety solely because it is new and the price is high; neither do we drop one from our list because it reaches a low-price field. What we do offer is potential beauty, in bulbs of such health and vigor, that you may confidently expect to realize in your garden the possibilities that have already made you a Glad Fan.

Large Bulbs 2 for .35; 10 for 1.40; 25 for 2.80
Medium Bulbs 3 for .30; 10 for .85; 25 for 1.70

Small Bulbs 10 for .50; 25 for 1.00
Bulblets: Pkg. of 50 or more .40

ACE OF SPADES (Sisson '50) 458-85

One of the darkest of the black reds. Clear glistening deep black with silky sheen and buds of jet black. Opens 4 or 5 large very nicely waved and ruffled florets on tall spikes. Very popular with those who like the dark ones.

AFRICA (K&M) 580-80

If you can visualize this—a brown granite color with a geranium red base — then you will agree it is somewhat an unusual glad. The spikes are good and on them open 6 well-placed florets. No reason why it shouldn't win in its color class. You better try Africa for it is an interesting novelty.

ALBERT SCHWEITZER (K&M '56) 436-85

This one from K&M is far better than you realize. It has a good spike, a strong heavy one carrying 20 buds and opens 6 to 8 firmly attached brilliant orange-scarlet florets. This outstanding novelty, with its majestic appearance and good cut flower habits, is a must in your garden.

ARIADNE (Mitsch '37) 401-86

A creamy-white with a striking red blotch. This is one of the oldest glads in our catalogue and it is a real beauty.

BLACK JOE (Flad '54) 554-70

The imperial potentate of your glad garden. You will find Black Joe to be early on the job with its 20 buds and 8 florets opened which are splendidly ruffled. A rather unusual dark red with a fluorescent overtone and a silver edging. Does not sunburn and is one of the finest earlies. We rate this highly.

BLACKPOOL (Visser '54) 458-80

Clean black red with excellent color value. A very nice glad with tall straight spikes. Opens 7 on a 20 bud stem. Strong grower and propagator. Very healthy and a good exhibition variety.

A Rainbow In Your Garden

Yes, you too, can have a rainbow of color in your garden with any of the following collections. Each collection is made up at the time of your order, and if there are certain colors you do not care for, they will be left out. Remember, it is not a mixture of discards but a selected one of about 40 varieties or more, named and described elsewhere in this catalogue.

We sell hundreds of these collections every year and have a great many fine reports on them. If these bulbs were sold separately under name, they would cost several times the price asked as a collection.

RAINBOW COLLECTION

Our selection, a rainbow of color, in at least 40 varieties. This collection, if bought under label, would cost considerably more. In fact, you can not get a better display of glads at any price.

L Bulbs—not labeled. 50 for 2.75; 100 for 5.00
M Bulbs—not labeled. 50 for 1.75; 100 for 3.00

DARK COLORED ASSORTMENT

Each year people ask us for an assortment of all dark shades, so we now have this collection for them. It will consist of reds, scarlets, purples, violets, smokies, etc. Am sure they will please you.

L Bulbs—not labeled. 50 for 3.50; 100 for 6.00
M Bulbs—not labeled. 50 for 2.00; 100 for 3.50

LIGHT COLORED ASSORTMENT

This collection will consist of pinks, lavenders, whites, rose, yellows, etc. If you have a desire for more of a certain color please mention it and we will act accordingly.

L Bulbs—not labeled. 50 for 3.50; 100 for 6.00
M Bulbs—not labeled. 50 for 2.00; 100 for 3.50

SUPER-DUPER COLLECTION

This is the last word in an unlabeled collection. Would cost you several times the price asked if bought labeled. Real aristocrats in gladiolus.

L Bulbs—not labeled. 25 for 5.50; 50 for 10.00
M Bulbs—not labeled. 50 for 6.50; 100 for 12.00

OUT-OF-THE-ORDINARY COLLECTION

In the past four years this has been our most popular collection which consists of the newer and better varieties in a good color range. Most are heavy show winners. This collection would cost at least \$20.00 and more per 100 if bought under label.

L Bulbs—not labeled. 50 for 5.50; 100 for 10.00
M Bulbs—not labeled. 50 for 3.50; 100 for 6.00

RUFFLED ASSORTMENT

Preferred by many, the collection here is of frilled and ruffled varieties. Assortment will be made up partly of newer varieties as well as the better standard ones.

L Bulbs—not labeled. 50 for 4.50; 100 for 8.00
M Bulbs—not labeled. 50 for 2.75; 100 for 5.00

MINIATURE ASSORTMENT

A selection of about 20 of the most outstanding miniature gladiolus in a selected range of color including some not listed.

L Bulbs—not labeled. 50 for 4.00; 100 for 7.50
M Bulbs—not labeled. 50 for 2.75; 100 for 5.00

COLLECTION OF SMOKIES

A real assortment of about 15 or more smoky shades of gladiolus. A truly striking selection of unusual colors including many newer varieties.

L Bulbs—not labeled. 50 for 4.50; 100 for 8.00
M Bulbs—not labeled. 50 for 2.75; 100 for 5.00

BLUE CONQUEROR (Salman '55) 471-80

This deep blue gladiolus can be regarded as an excellent improvement in this class. Opens 10 on good strong spikes. With its fine color and good stem this is the finest in its class. It is a wonderful show glad and should become a good commercial.

BLUE PETER (White '56) 476-100

For a blue, this is not bad—no siree. The plant is healthy, grows tall sending up a good, straight spike that holds 25 buds with 5 open florets. The blooms are dark blue. One of the best introductions of the 1956 season and a very popular variety.

BORNHOLM (DeBruyn '57) 420-80

A very attractive buff with a light yellow throat that opens 10 easily in precise formal placement. Excellent show glad, and a top notch commercial.

BROWN LULLABY (Pazderski '57) 496-95

When it comes to the very unusual in color, here's one that seems to be just what the doctor ordered. In color, it is a light golden brown with a red spot in the throat and a silver edging to the petals. On its spike of 18 to 20 buds, up to 12 can open at a time. Sounds most unusual? Well, it is and, what's more, it is very consistent in performance.

CABALLERO (Fairchild '55) 426-85

Really an eyecatcher, and one you will not want to pass up if you enjoy vivid, stunning color contrasts. A brilliant reddish orange with a striking red throat marking and bordered yellow on lip petals and midribs. Opens 7-8 good sized well placed florets. Nothing else like it.

CALICO (Fischer '57) 451-75

A pretty thing, this Calico. A rather attractive variety, particularly to glad fans who like their glads in the unusual colors. The florets are nicely ruffled, light rose with deep red blotches. Eight of these open on an ideal spike.

CAMPANILE (Fischer '56) 466-100

The answer to a demand for a clean true lavender. It grows much taller and has more buds than Elizabeth the Queen. Opens 8-10 florets that are lightly ruffled and recurved. Growth, propagation and germination are very good.

COMANCHE CHIEF (Larus '59) 497-80

Here is a smoky that is made to order for those who like the unusual. A mulberry brown with a clean white diamond on the lower petals. It is very tall reaching a height of 60 inches and opens 6 to 8 large florets on spikes of 18 to 20 buds. Florets are well attached and placed with a beautiful reversed rolled-back effect.

A fine exhibition variety that received an "A" rating as a seedling at the large Eastern International Show at Hershey, Penn. in 1958. Comanche Chief is a strong healthy grower and a good producer of easily grown bulblets.

CONRAD (Tyndall '55) 417-95

A very tall, deep yellow with a large scarlet feather on the lower petal—somewhat the color of Spotlight. Carries 20 florets, opens 6-8 with 5 showing color. One of the tallest glads shown.

CONTENTMENT (Fischer '57) 460-80

A very beautiful delicate orchid-lavender with large creamy throat. Opens 6 to 8 heavily ruffled needlepointed 5 inch florets on tall stems. A first class early commercial and a good one, too.

CORONATION (Murray '56) 440-80

Certainly one of the most beautiful varieties. A clear medium pink with cream throat. Opens 7-9 with 6 in color on a 20 bud spike. Plant height about 55 inches and is a vigorous healthy grower. Has won highest awards in numerous Canadian Shows and test gardens.

COUNTESS (Larus '57) 442-80

Pure light pink with florets 5 to 5½ inches in diameter opening 8 to 9 precisely placed florets on a long tapering spike totaling 20 to 25 buds. Grows 60 inches tall with flowerhead measuring 28 to 34 inches.

DARK BRILLIANCE (Puerner '56) 458-85

Identical in every respect, but color, to King David from which it is a sport, its color is velvety black-red and opens 8 to 10 of its ruffled florets on a 23 bud spike. This one is a top contender at the shows.

D'ARTAGNAN (K&M '57) 411-85

Clear, light cream with two large red blotches. Florets are large and as many as 8 open at one time which, together with its tall upright spikes, gives this variety a majestic and dominating appearance. A knockout that you should have.

ELIZABETH THE QUEEN (White '41) 560-86

Beautiful lavender with darker lines in the throat. It has large ruffled blooms with 8 open and is one of the most beautiful glads grown. Our bulbs are without doubt some of the best in the country since they seem to grow taller spikes.

FATHER STEVE (Majewski '59) 454-75

A fine crisp, large flowered rose with a clear white throat. A modified fluting adds to its appeal. Has 4½ inch blooms, 18 to 20 buds with 6 to 8 open. Blooms are firmly attached with good placement on a 55 inch sturdy spike.

FATA MORGANA (K&M '55) 331-80

Bright peachy salmon pink with sharply contrasting clean, deep, amber lip petals. Makes elegant spikes, 55 inches tall, wiry and strong, and bears 6-8 ruffled 4½-inch florets on an eighteen bud spike. Very outstanding color harmony, and a variety with a brilliant future.

FIAT LUX (K&M '52) 414-70

This yellow is extremely popular for its pure golden yellow color. A tall, upright spike with 8 to 10 florets opening on a 20 bud spike. One of the very best yellows.

FLORENCE NIGHTINGALE (Harris '47) 400-88

A marvelous glistening white that is 68 inches tall. Opens 6 to 8 well placed florets on a 21 bud spike. Florets are 5½ inches across. Without a doubt the best white for both show and cut flower purposes.

FORTUNE (Melk '54) 426-80

Brilliant true orange—the brightest of its color. A vigorous grower with 6-8 five inch florets open on tall well balanced spikes. One everyone should grow.

FRIENDSHIP (Fischer '49) 442-70

Lovely shade of pure pink that blends to a waxy cream throat. It is certainly one of the most beautiful varieties and a wonderful cut flower. Very early.

GAIL (Farrington '49) 460-80

A tall, stretchy lavender that opens 7 to 9 florets of excellent attachment. Never crooks or flecks. Will become a very popular commercial since it handles very well.

GARY (Harris '57) 414-75

A clear light yellow with no other markings. Its substance is remarkable, opening 8 to 10 five inch florets on a 22 to 24 bud spike. It is a rugged grower and in ordinary field culture it will easily reach 55 inches. The florets are perfectly placed on a long straight spike. It produces bulblets lavishly and they germinate easily. Gary is a wonderful commercial and has two "Awards of Merit" to its credit plus blue ribbons in its class.

GATES OF PEARL (McRae '56) 511-85

The Corona type in color—creamy white shading to pink edges. Opens 8 or more nicely ruffled and fluted wide open blooms. Commercial and exhibition type.

GIPSY ROSE (Seher '58) 554-80

A superb gladiolus. The individual florets consistently measure 6 inches in diameter with 6 to 8 well placed open florets that have good attachment. The 20 to 22 bud spikes are practically straight, tall and somewhat heavy. The plant has extremely vigorous growth. Its color is a medium rose with a deeper rose in the throat. A fine exhibition variety and superb as a cut flower.

GOLDEN BOY (Secrest '54) 316-80

A very nice deep yellow that opens 8 wide open 4 inch blooms on a spike of 20 buds. Should be the best yellow for exhibiting in the medium size class.

GOLDEN FICTION (Salman '57) 410-70

A nice clean medium light yellow with ruffled and flaring petals. A glad with superior color value. Opens 6 to 8 well placed florets on a 20 bud spike. A healthy grower, coupled with its excellent habits, makes this a must in your garden.

GOOD MORNING (Lacey '54) 511-85

An enormous Corona type but whiter and, in addition, has a soft rose throat. This one is an easy grower from all sizes producing long 21 bud heads with 7 open. A terrific propagator and a very healthy variety. Should be a leading commercial.

GREEN ICE (Barker '57) 404-80

In color, Green Ice is probably the best of the "Green Glads." It produces fine, long, stretchy spikes with up to 8 or more open on 30 inch heads and up to 23 buds. One of the finest show glads as well as an excellent variety for out of the ordinary arrangements.

GREEN WOODPECKER (K&M '58) 305-75

This irresistible unique new color is most delightful and has no equal. Color is a deep lemon-green with two wine-red markings on the deeper green lower petals. The tall upright straight stem carries from 10 to 12 medium sized florets.

INSURPASSABLE (Salman '55) 448-65

Clean vivid deep red throat approaching black red, 1/8 inch cream pencil line on lip petals. Excellent commercial spikes; grows strong and tall from all size bulbs with 10 open on a 20 bud spike. Extremely early.

JILL (Kroon '58) 450-70

There are few varieties that can equal Jill for florist work. A very beautiful shade of rose pink with a soft cream throat that is unusually attractive. The growth is strong and vigorous, producing spikes carrying 18 to 20 buds and opening 7 to 9 beautiful ruffled florets. Has all the characteristics of a top notch glad.

KAREN (Mazur '52) 467-85

One of the most striking novelties seen in some time. A rather dark rose-purple with a strikingly contrasting cream blotch. Florets are somewhat waved and well rounded with 8-10 open at a time. One you will surely like.

LAVENDER BEAUTY (Kolb '50) 461-80

This one will surprise you. A tall light pinkish lavender that is hard to beat as a cut flower. A wonderful robust grower, it has 7 to 9 florets opening on a tall spike. We recommend you try this variety in your garden.

LYNNE HILL (Teeple '52) 456-90

Very unusual color. A rose-purple with deeper throat and each petal edged with silver. Ruffled 5 3/4 inch florets with 8 open and 8 showing color. Height 50 inches with a 20 inch flowerhead.

MAD HATTER (Kroon '56) 442-75

This unusual variety is a light rose going to cream in the throat, and carries extra long flowerheads with 7 to 9 open. A healthy and vigorous grower. A gorgeous beauty that you should try. A favorite with all the ladies who visited our fields this summer.

MEDALIST (Butt '58) 446-80

Bright, light red with faintly deeper lip petals striped with a couple of narrow creamy white lines. Opens 6 to 7 on quite tall spikes. Nice for early cutting.

MODERN TIMES (Salman '48) 456-75

Crimson-purple or reddish rose. The same color as Boulogne but is a better glad in my opinion. Tall and straight grower with 6 to 8 open. For those who want a good commercial glad — and a florist favorite — we recommend Modern Times.

NEGRO BOY (K&M '56) 458-80

Very outstanding black red that opens 6 to 8 perfectly placed florets. A real addition to the dark red class and should become popular. Limited stock — so order early.

OSCAR (K&M '58) 548-85

Clean velvety dark red with a cream line on lower petals. Opens 8 to 10 wide open flaring florets on a spike of 20 to 22 buds. Makes huge spikes up to 65 inches with 30 inch flowerheads. Probably the best of the dark red varieties.

ORIENTAL SPLENDOR (Visser '56) 490-85

One of the most unusual smokies grown. A garnet brown with deeper veins and very unique and beautiful. Opens 8 to 10 on very tall spikes. If you like smokies I recommend you try this.

PAGAN (Butt '59) 456-85

An improved but slightly smaller version of Burma. A bit deeper color and with better placement and opening qualities. Heavily ruffled and of heavy substance. 7 to 8 open on a 50 inch stretchy stem. Deep rose and quite nice.

PANDION (Salman '55) 564-70

Self-colored lilac with a mauve cast. A good grower with 6 to 8 well placed florets open on a tall spike of 20 buds. Florets are slightly ruffled. One of the best commercial varieties and it is very early.

PARTY RUFFLES (Rich '57) 410-80

A beautiful dream of very heavily ruffled cream, with a suspicion of pink showing thru the petals, like a pink slip showing a hint of color under a girl's ruffled, frothy, party dress. It will open 8 to 9 of its large lovely florets at a time on fine sturdy spikes. A great prospect for show and commercial. It already has an outstanding show record.

PEACH FESTIVAL (Miller '59) 541-90

A large buffy peach-pink, Peach Festival throws tall spikes on which are 10 well placed open florets with extremely heavy ruffling and substance making this variety the ultimate in the ruffled type. It is a good producer of bulblets that are not only easy to germinate but grow into large bulbs as well. In 1959 Peach Festival won Grand Champion at Boston, a Section Champion, and at least 5 other Blue Ribbon Awards on a very limited distribution of bulbs.

PEGGY WHITE (Hallet '55) 400-90

Clean, opaque white that opens 7 to 9 beautiful, ruffled florets on a strong, straight 22 bud spike. One that will become a leading exhibition variety as well as a top notch commercial. Vigorous grower, a good increaser, and produces fine clean bulbs.

PICOTEE (Holland)

This glad should not be confused with the miniature bearing the same name. Picotee is a cream-white with a pink margin. It is a very good tall grower, opening 5 to 7 florets at one time. A new one from Holland that should make a good cut flower.

PINK PRIDE (Arenius '52) 541-80

Certainly a rival of King Size. This is a huge light pink with 8-10 florets open on a 20 bud flowerhead with good placement. I predict Pink Pride will win more than its share of blue ribbons.

PINK SENSATION (Holland) 442-85

Beautiful pale rose pink—actually, a glorified model of Tivoli. It is a tall stately grower that opens 8 to 10 in perfect placement. This will become very popular as a cut flower.

POLYGOON (Salman '56) 411-80

This made as near perfect spikes as I have seen in a long time in our fields. A creamy yellow with a red blotch that opens 7-10 well placed blooms. Very tall and a strong and healthy grower.

PRAIRIE (K&M '51) 460-70

Beautiful chocolate colored smoky that is one of the most popular varieties for arrangements. Opens 8 on a well balanced spike. If you like smokies you will want Prairie.

PRINCESS (Larus '53) 460-90

A deep but bright and attractive lavender with faint rose lines toward the throat. Florets are nicely frilled with raised and fluted mid-ribs. Princess is a tall grower with 8-10 open at a time. Certainly one of the best of the 1953 introductions.

PROSPECTOR (Leffingwell '53) 414-85

Beautiful light yellow with deeper buff-yellow lip petals. Florets are beautifully frilled and crimped at the edges. Opens 6-8 on medium tall spikes.

RED PEPPER (K&M '54) 548-85

Clean brilliant deep red with a slightly deeper throat almost a self. Tall and strong with long flowerheads. Opens 6 well placed 5½ inch florets on tall spikes. Has evidence of great promise commercially. Double "A" rating at Ohio Test Gardens.

RHETT BUTLER (Kuhn '47) 336-75

Bright flaming orange scarlet. This is positively the earliest red. A real money maker for early cut flower growers. Grows up to 55 inches tall with 6 to 8 open.

K & M Butterfly Varieties

From one of Holland's foremost growers and hybridizers, Konyenburg & Mark, we have the opportunity of offering you thirty-two outstanding Butterfly Varieties. The listed glads with their unique and wonderful colors, accentuated by their striking throat and blotch markings, will become great favorites. The florets are of extraordinary texture, with fine substance, opening 6 to 8 consistently. These varieties have proven to be very good propagators and are extremely healthy. Only when you grow them in your garden will you truly appreciate their phenomenal beauty.

ANTELOPE (K&M '60) 335-60

Rich salmon-orange with orange scarlet blotches and a gold orange scarlet throat. Opens 7 to 8 slightly frilled florets. An attractive variety that all should grow.

(L 1-.25; 10-2.00) (M 1-.20; 10-1.60)
(S 2-.25; 10-1.00) (Blbts., 20-.40; 100-3.00)

ARES (K&M '54) 311-75

Amber-white with pink glow and a cherry blotch. Opens 6-8 florets on a 15 to 17 bud spike. Early flowering. Award of Merit in 1953.

(L 2-.35; 10-1.30) (M 2-.30; 10-.85)
(S 5-.30; 10-.50) (Blbts. pkg. .40)

ATTICA (K&M '55) 331-85

A deep rosy-pink with a beautiful yellow throat, opens 8 perfectly placed florets on an 18 to 20 inch spike. This is really a ruffled beauty.

(L 2-.35; 10-1.40) (M 3-.30; 10-.80)
(S 5-.30; 10-.50) (Blbts. pkg. .40)

BIBI (K&M '59) 311-80

Very attractive and unique color—ivory, softly overlaid with a deep rose throat. One of the finest and prettiest of the butterfly varieties. Wonderful for cutting.

(L 1-.25; 10-2.00) (M 2-.35; 10-1.20)
(S 2-.25; 10-1.00) (Blbts. pkg. .40)

BOSTON (K&M '55) 336-85

Certainly, one of the best. A nice shade of scarlet with an orange cast. Opens 6 to 8 on an 18 bud spike. We are sure that you will like Boston.

(L 2-.35; 10-1.40) (M 3-.30; 10-.80)
(S 5-.30; 10-.50) (Blbts. pkg. .40)

CASSANDRA (K&M '55) 326-85

An orange-red with a creamy-yellow blend on the two lower petals. Opens 6 to 8 ruffled florets on a 16 bud spike. Beautiful for arrangements.

(L 2-.35; 10-1.40) (M 3-.30; 10-.80)
(S 5-.30; 10-.50) (Blbts. pkg. .40)

DAILY SKETCH (K&M '60)

Light primrose having a deep buff throat, a delicate and very attractive color combination. Florets are slightly ruffled with 5 to 7 open on a neat well balanced spike of 16 to 18 buds.

(L 2-.35; 10-1.40) (M 3-.30; 10-.80)
(S 5-.30; 10-.50) (Blbts. pkg. .40)

DESIREE (K&M '58) 337-70

Deep scarlet with blood red blotches on a yellow bordered base—a most pleasing color combination. Wonderful growers with 6 to 8 open on spikes of 16 to 18 buds.

(L 2-.35; 10-1.40) (M 3-.30; 10-.80)
(S 5-.30; 10-.50) (Blbts. pkg. .40)

DOLL'S MINUET (K&M '58) 335-60

An apricot salmon with an orange scarlet blotch opening 6 to 8 florets on its 17 to 19 bud spike. Truly, a very promising butterfly.

(L 2-.35; 10-1.40) (M 3-.30; 10-.80)
(S 5-.30; 10-.50) (Blbts. pkg. .40)

DONALD DUCK (K&M '58) 311-70

Certainly, one of the most beautiful of the butterfly varieties. A light cream with a bold red blotch somewhat like Pactolus. Opens 6 to 8 on a well balanced spike of 18 buds. A must for those who appreciate beauty.

(L 1-.25; 10-2.00) (M 2-.30; 10-1.20)
(S 2-.20; 10-.80) (Blbts. 25-.25; 100-.75)

ELF (K&M '58) 331-70

Beautiful orange-pink with yellow lower petals running to cerise-red in the throat. Makes a neat spike of 18 buds, 8 to 10 open. A striking variety that can easily win Division Champion at the shows.

(L 2-.35; 10-1.40) (M 3-.30; 10-.80)
(S 5-.30; 10-.50) (Blbts. pkg. .40)

FROU FROU (K&M '56) 367-70

An unusual shade of lilac-pink color with small cream blotches on each of the lower petals. Opens 5 to 7 on a neat well balanced spike. See color reproduction.

(L 1-.25; 10-2.00) (M 2-.30; 10-1.20)
(S 2-.20; 10-.80) (Blbts. pkg. .40)

GIPSY CARNAVAL (K&M '59) 335-

A rich golden salmon flushed orange-scarlet with large scarlet blotches. Opens 8 to 10 frilled florets of heavy substance. A beautiful decorative variety that can be handled many ways.

(L 1-.25; 10-2.00) (M 2-.35; 10-1.40)
(S 2-.25; 10-1.00) (Blbts. pkg. .40)

GIPSY LOVE (K&M '56) 327-80

Brown-toned orange, with vivid tangerine blotch. Opens 8 florets on a 22 bud spike. The stems are wiry, straight and strong. One of the highest rated K&M "Butterfly."

(L 2-.35; 10-1.40) (M 3-.30; 10-.80)
(S 5-.30; 10-.50) (Blbts. pkg. .40)

ICE FOLLIES (K&M '56) 300-70

Beautiful purse ruffled white with 6 to 8 open on medium tall spikes. Wonderful for arrangements and a favorite of florists.

(L 2-.35; 10-1.40) (M 3-.30; 10-.80)
(S 5-.30; 10-.50) (Blbts. pkg. .40)

JACQUELINE (K&M '60) 331-

Salmon pink with creamy blotch — a very dainty color combination. Opens 6 to 8 on a neat spike of 18 to 20 buds. A cute little thing.

(L 1-.25; 10-2.00) (M 2-.35; 10-1.40)
(S 2-.25; 10-1.00) (Blbts. 15-.25; 100-1.00)

JOLLY JOKER (K&M '59) 217-85

A superb miniature with perfectly shaped wide open florets and extremely striking color. The red blotch is so large and the yellow background on which it lies so small in comparison that one finds it difficult to classify. Opens 7 on a 19 bud spike.

(L 1-.25; 10-2.00) (M 2-.35; 10-1.40)
(S 2-.25; 10-1.00) (Blbts. 15-.25; 100-1.00)

KOLIBRIE (K&M '55) 315-85

On the same order as Pactolus, Kolibrie is a light yellow with a crimson blotch. Opens 6 to 8 ruffled florets on an 18 bud spike.

(L 1-.25; 10-2.00) (M 2-.30; 10-1.20)
(S 2-.20; 10-1.60) (Blbts. 25-.25; 100-.75)

LITTLE DIAMOND (K&M '60) 237-85

Apricot-salmon that is flushed with scarlet toward the outer edges. Has a brownish-red throat. A variety that presents a spectacular fiery glow. Opens 6 to 8. Wonderful for arrangements. Winner of an Award of Merit.

(L 2-.35; 10-1.40) (M 3-.30; 10-.80)
(S 5-.30; 10-.50) (Blbts. pkg. .40)

LITTLE SHEBA (K&M '58) 311-58

This little darling, with its ivory white color and distinct scarlet violet blotches, opens 6 to 8 florets with formal placement. A very attractive color combination.

(L 1-.25; 10-2.00) (M 2-.30; 10-1.20)
(S 2-.20; 10-.80) (Blbts. 25-.25; 100-.75)

MADAME BUTTERFLY (K&M '60) 343-75

Peach-pink with light red markings that are very pronounced. Opens 5 to 7 florets on a well balanced spike of 16 to 18 buds. Very unusual and pleasing color combination.

(L 1-.25; 10-2.00) (M 2-.30; 10-1.20)
(S 2-.20; 10-.80) (Blbts. 25-.25; 100-.75)

MELODIE (K&M '55) 331-70

Here is a beauty that you will love on sight. A rose-pink with yellow lip petals. Opens 6 to 8 on an 18 bud spike. No description can fully describe the beauty of Melodie.

(L 2-.35; 10-1.40) (M 3-.30; 10-.80)
(S 5-.30; 10-.50) (Blbts. pkg. .40)

MICKEY MOUSE (K&M '60) 331-60

Light salmon pink with bold scarlet blotches. Opens 6 to 8 well placed florets on a spike of 17 to 18 buds. Very striking and a favorite with the ladies. Award of Merit winner.

(L 1-.25; 10-2.00) (M 2-.30; 10-1.20)
(S 2-.20; 10-.80) (Blbts. 25-.25; 100-.75)

MOIRA SHEARER (K&M '59) 311-75

Ivory-white with deep scarlet-red blotches which are edged with a yellow border. Opens up to 10 on spikes of 50 inches. A beauty with unusual color.

(L 1-.25; 10-2.00) (M 2-.30; 10-1.20)
(S 2-.20; 10-.80) (Blbts. 25-.25; 100-.75)

NOLA (K&M '59) 337-60

A lovely Butterfly that opens 6 to 8 on a well balanced spike. Color is apricot-orange with a deep velvety crimson blotch on lower petals. Outstanding for decorative purposes.

(L 1-.25; 10-2.00) (M 2-.30; 10-1.20)
(S 2-.20; 10-.80) (Blbts. 25-.25; 100-.75)

QUEEN'S PAGE (K&M '57) 311-75

A creamy-yellow with a striking orange-red blotch and a shading of light yellow bordering the blotch. Opens 5 to 6 on a nicely balanced spike of 15-17 buds. See color reproduction.

(L 2-.35; 10-1.40) (M 3-.30; 10-.80)
(S 5-.30; 10-.50) (Blbts. pkg. .40)

ROADKAPJE (K&M '60) 346-59

Poppy-red with deeper red at edges. Makes good spikes with up to 8 open on a spike of 19 buds. Very attractive.

(L 1-.25; 10-2.00) (M 2-.35; 10-1.40)
(2-.25; 10-1.00) (Blbts. 25-.25; 100-.75)

SPIRITO (K&M '60) 237-70

A delightful bright scarlet miniature with a red throat marking and two dark red darts. Opens 8 to 10 on a spike of 17 to 19 buds. Very much needed in the scarlet miniature class. Will become a heavy show winner.

(L 1-.30; 10-2.40) (M 1-.20; 10-1.60)
(S 2-.20; 10-.80) (Blbts. 10-.25; 100-2.00)

SUMMER FAIRY (K&M '57) 335-75

A reddish salmon shading somewhat deeper towards the border of the petals giving it a distinctive and unusual reddish maroon color effect. Award of Merit winner in 1955. A pretty little thing. We suggest you try this variety.

(L 2-.35; 10-1.40) (M 3-.30; 10-.80)
(S 5-.30; 10-.50) (Blbts. pkg. .40)

TOPOLINO (K&M '57) 317-80

Clean, pure, deep golden yellow with large orange-scarlet blotches. One of the most ruffled and spectacularly blotched of the Butterfly Varieties. Opens 7 to 9 on a 17 bud spike. A pretty cute one.

(L 2-.25; 10-1.40) (M 3-.30; 10-1.20)
(S 5-.30; 10-.50) (Blbts. pkg. .40)

VIVALDI (K&M '55) 327-70

Deep orange with a prominent throat of bronzy dark brown. Opens 7 on a 16 bud spike.

(L 2-.35; 10-1.40) (M 3-.30; 10-.80)
(S 5-.30; 10-.50) (Blbts. pkg. .40)

WALT DISNEY (K&M '60) 315-60

Primrose, offset by a large scarlet blotch. Opens 6 slightly ruffled flaring florets on a well balanced spike of 16 to 18 buds. With its pleasing sharp color contrast this will become very popular.

(L 1-.25; 10-2.00) (M 2-.30; 10-1.20)
(S 2-.20; 10-.80) (Blbts. .25; 100-.75)

QUANTITY PRICE LIST—NOT PREPAID

(PLEASE READ CAREFULLY)

Prices indicated are per 100 bulbs F.O.B., Plainville, Conn. Not less than 25 of a size and variety at the 100 rate; 250 or more at 1,000 rate. For 1,000 rate multiply 100 rate by eight.

Small orders from this list can be shipped cheaper by parcel post. Please add (or send) sufficient money to cover shipping charges if wanted by mail.

Wholesale orders shipped by parcel post are at customer's own risk. Express is safer and better and we recommend shipments this way.

Approximate weight per 100 bulbs packed: No. 1—8 lbs.; No. 2—6 lbs.; No. 3—4 lbs.; No. 4—2 lbs.; No. 5—1 lb.; No. 6—1/2 lb.; Bulblets, qt.—2 lbs.

1 Pint bulblets sold at quart rate. All bulblets sold by dry measure.

Please note, no order for less than \$5.00 accepted from this wholesale list. 5% discount on orders over \$100.00.

SUNSET BLAZE
(Page 15)

YELLOW JACKET
(Page 15)

EARLY SPRING
(Page 11)

ROSA (Flad '57) 454-75

This is an early glad whose color is medium to deep rose and somewhat on the purple side. It opens 6 to 7 nicely ruffled florets on a 21 bud spike. Introduced as a commercial, it also has an enviable show record. Superb grower.

ROSEATE (Butt '58) 454-85

Beautiful rose pink with white throat. Makes tall straight spikes with 6 to 8 open blooms. Received "Gold Medal" in Canadian Trials.

ROSE LACE (Jack '59) 354-70

Very early heavily ruffled medium rose with a cream piro-tee edge and a deep cream lip feathered deeper rose. Spikes grow very tall with 30 inch heads and 10 open. Valuable as a cut flower because of its earliness.

SALMAN'S SENSATION (Salman '53) 576-90

A sensation among blues. Medium dark blue. Opens 6-8 well placed and well attached 6-7 inch blooms with 8 showing color and a total of 22 buds. Spikes are extremely tall with very heavy dark green foliage. You must see it to appreciate it. Sure to be a heavy show winner.

SANS SOUCI (K&M '51) 436-85

Rich glowing scarlet with a narrow white line on lower petal. Florets have heavy texture and are well placed on good spikes. It is a tremendous grower and will become very popular.

SILVER PHANTOM (Butt '53) 400-85

A snow white sport of Phantom Beauty that opens 8 to 10 large florets on a spike of 50 to 55 inches. One of the finest commercial whites as it is a consistent grower.

SUMMER QUEEN (Fischer '55) 542-80

Large salmon of a warmer shade than Spic & Span. Opens 8 ruffled blooms of heavy substance. Makes big spikes on tall straight stems. Very healthy grower and fast propagator.

TABARIN (K&M '56) 435-80

The main color is salmon pink with a distinctive blood-red blotch on deep yellow on the three lower petals. Good placement and attachment with 6-8 open on tall wiry stem. Highly recommended because of its vivid, exotic colors.

TARGET (Larus '57) 441-80

An extremely vigorous and healthy grower. It will throw spikes 55 to 60 inches tall with flowerheads of 27-30 inches long. It opens 6-8 from a total of 18-20 buds. The 5½ inch florets, which are a light blush pink shading to a cream throat with a large light red blotch, are quite unusual and striking.

TEMPTRESS (Fairchild) 440-80

Very light pink with a few deeper pink lines in the throat. Opens 9 to 11 formally placed 5 inch florets with 8 showing color. Spikes with over 30 inch flowerheads and 25 buds are common. Has been a consistent blue ribbon winner at the shows.

TEXAS WHITE (Fischer '56) 500-95

A colossal white. The plants are about the most vigorous in the field. Has heavy substance with 6-8 huge florets measuring 6-7 inches on a 60 inch spike. Very reliable cut flower with great possibilities. Try this variety.

TIMES SQUARE (Butt '54) 566-70

An outstanding and beautiful magenta purple. A tall, strong grower with 7-9 large wide-open, well attached florets gracefully arranged on a long flowerhead.

WHITE EXCELSIOR (Europe '54) 500-70

One of the best for early cut flowers. Grows up to 60 inches tall with 6-8 perfectly placed open florets. Certainly, recommend you try this. We have had fine reports from growers. Most of them agree that this is one of the best large early whites.

Gladiolus Supplies

PROTECT YOUR GLADS FROM INSECTS AND DISEASES

5% DDT DUST—Universally accepted for thrip control.

1 lb. (Postpaid, East of Miss.)	\$.50
5 lbs. (Postpaid, East of Miss.)	2.00
50 lbs. (F.O.B., Plainville, Conn.)	6.50
100 lbs. (F.O.B., Plainville, Conn.)	11.50

50% DDT WETTABLE POWDER—To dilute for spraying—or can be used as a dust.

1 lb. (Postpaid, East of Miss.)	\$1.25
4 lbs. (Postpaid, East of Miss.)	3.50

LABELS—Copper wired labels 3½ x ⅝ inches. These are very handy and are the ones we use here.

50 for .60—100 for \$1.00—500 for \$4.50—1,000 for \$8.00

SPERGON GLADIOLUS DUST—To be applied to bulbs before planting or after digging to help control storage rot, corm decay and thrip. May also be used on Tulips, Iris, Lily bulbs, etc.

2 ozs. (Treats about 200-400 bulbs)	\$.75
1 lb. (Treats about 2,000-4,000 bulbs)	2.75
5 lbs. (Treats about 10,000 bulbs)	8.00
10 lbs. (F.O.B., Plainville, Conn.)	12.00

ALDRIN 25W—A wettable powder used in water as an insecticidal spray. Also highly recommended for soil treatment for control of wireworms, maggots, grubs, etc. This is what we use in our fields.

4 lbs. (Treats ¼ acre, postpaid)	\$ 4.00
48 lbs. (Treats 4 acres, F.O.B.)	30.00

GET THIS WONDERFUL NEW BOOK ON GLADS!

Increase your pleasure, prizes and profits in glads by hundreds of valuable hints in "THE COMPLETE BOOK of the GLADIOLUS"—new book by Lee Fairchild, famous prize-winner, hybridizer and writer.

For years we've lacked an up-to-date book on gladiolus, but now Mr. Fairchild packs into his non-technical pages, clearly and concisely, the very latest data on growing, mulching, aiming for blue ribbons, propagating, dusting, spraying, hybridizing, fertilizing, and storing, illustrated with drawings, photos and tables to help any glad fan get the most out of his blooms. His long table of recommended varieties by size and color can save you many dollars and disappointments.

Whether you have only a few dozen spikes or grow glads by the thousands, you'll get far more out of this book than its modest price and I'm so sure of that statement that **I guarantee to refund your money** if you return the book unmarked in 10 days.

So order promptly to enjoy this delightful and practical book now and for years to come. **Send \$4.50 TODAY** and by return mail will come your 254-page "COMPLETE BOOK of the GLADIOLUS" at no risk to you.

SPECTACULAR 1963 INTRODUCTIONS

NOREEN (Baerman-Milo '63) 440-85

Birchville has been blessed with many good new ones this year and this one is no exception. It attains a 60 inch height, is straight and strong and a vigorous plant harboring a good flowerhead on which are nestled 20 to 24 buds 10 open and 5 showing color. The gorgeous blooms are light pink, heavily ruffled with a soft, gentle lighter throat. Noreen might be described as a more ruffled and deeper colored Pink Prospector. The florets are also rounder and more recurved. This looks like both an ace cutflower and a honey for the exhibitor. Don't deprive yourself of this thrillingly beautiful glad.

Lge., ea. 2.00; Med., 1.50; Sml., 1.00; 10 Blbts., 2.00.
Unit: 1 Lge., 2 Med., 5 Sml., 50 Blbts., 12.00.

CRIMSON SATAN (Baerman-Milo-Wagner '63)

548-70

Our earliest red to bloom and one of the largest, florets easily measure six inches in diameter. A true self-color deep red with an exquisitely rich velvety nap without any delineating white line throat-wise to distract attention from its redness. As clean as it is rich. Of medium height, the plant throws a real good flowerhead bearing 18 to 20 buds, 6 in full bloom and five showing. We take pride in this one, because it is extremely vigorous, healthy and really beautiful. Rapid propagation permits our modest price.

Lge., ea. 1.00; Med., .75; Sml., .50; 10 Blbts., 1.00.

TOTEM POLE (Baerman '62) 565-85

Man alive! What a glad! The tallest variety ever grown! A medium deep lavender with a cream white throat, Totem Pole grew 7 feet high with 8 to 10 large, wide open florets

on a strong, sturdy spike carrying 24 buds. Unquestionably, the wonder glad in this color class. Everyone who saw this in our fields were awed and impressed. Because of its extreme vigor, medium or even small bulbs will grow bloom stalks comparable to the normal growth of other varieties with large bulbs. No question about this one becoming a leading commercial.

(L 1-1.00; 10-8.00)

(S 1- .50; 10-4.00)

(M 1-.75; 10-6.00)

(Blbts. 5-.50; 100-8.00)

SIERRA SUE (Baerman-Milo '63) 564-85

Extremely fine, beautiful, deep lavender blooms measuring 5 1/2 inches. A stately plant that grows well and throws an exceptionally good spike on which are 8 to 9 well opened blooms. The small ivory throat enhance the dainty appearance. You'll find the florets stylishly ruffled to give it the beauty it richly deserves. A supremely gorgeous and magnificent glad.

Lge., ea. 3.00; Med., 2.00; Sml., 1.50; 10 Blbts., 3.00.

TERRA COTTA ROSE (Baerman-Milo '63) 542-80

Like most top quality glads this attains a field height of 5 feet, possesses a nice strong spike bearing 22 buds with 6 to 8 open and 6 showing color. The color is what the name implies and really a nice warm, pleasing color. The "garden name" of this glad prior to introduction was "Odd Rose". Substance is heavy as chamois skin, ruffling intense. Florets are about six inches in diameter with evidence of fluting and mid-ribbing. Terra Cotta Rose is a very attractive variety that will appeal to you and the trade.

Lge., ea. 2.00; Med., 1.50; Sml., 1.00; 10 Blbts., 2.00.

Unit: 1 Lge., 2 Med., 5 Sml., 50 Blbts., 12.00.
